DO YOU KNOW THE MAJOR CONTRIBUTING FACTORS TO CELLULITE?

- 1 Enlarged fat chambers in the skin causes there to be pressure
- 2 Collagen fibers remain rigid pulling inward causing there to be the formation of a "dimple"
- 3 Loss of skin elasticity decreases resistance to internal outward pressure
- 4 Poor blood flow
- 5 Metabolic waste accumulation internally

CLIENT TESTIMONIALS

“I started feeling again more confident. I can wear the things I wanted to wear and even shorts. At 55, I can even wear the short shorts.”

“EMTONE is the fountain of youth. I am thoroughly happy with my results.”

EMTONE™

CLIENT TESTIMONIALS

“A lot of times I would go straight from here (provider office) to one of my workout classes....and three to four weeks into it I started to notice a difference.”

“You are actually not doing any work. The Emtone is working for you and treating the cellulite.”
