LIFESTYLE

EXPERTISE. PASSION. EXCEPTIONAL SPACES.

At FHL Pools & Spas we create extraordinary spaces that enhance how you live. From stunning swimming pools to complete wellness environments, we design and build exceptional projects for discerning clients across the UK.

With years of experience within the luxury pool and wellness industry, our team brings together technical expertise, creative design and meticulous craftsmanship. We manage every detail, from initial concept and design, through to construction and final completion, delivering a seamless and highly personal service.

Whether it's a contemporary outdoor pool, an elegant indoor retreat, or a fully integrated wellness development featuring saunas, steam rooms, hot tubs and bespoke spa facilities, we are committed to creating spaces that are as beautiful as they are enduring.

CONCEPT

Bespoke design tailored to your lifestyle and property.

DESIGN

Innovative solutions with meticulous attention to detail.

BUILD

Expert construction and project management delivered to the highest standards.

WELLNESS

Pools, spas, saunas, steam rooms and complete wellness developments.

Transforming homes | Enriching lives | Across the UK

OUR APPROACH

Collaborating to Create Exceptional Spaces

At FHL Pools & Spas, collaboration is at the heart of everything we do. We work closely with our clients, architects, designers and specialist contractors to create bespoke swimming pools and wellness environments that enhance the way you live.

Our approach is built on experience, innovation and attention to detail. From the first conversation through to final handover, we manage every element with precision, ensuring a seamless, enjoyable experience and an exceptional result.

With expertise across both residential and commercial projects, we combine technical knowledge with creative design to deliver swimming pools, spas, saunas, steam rooms and complete wellness developments — tailored to each client, each property and every lifestyle.

BESPOKE SOLUTIONS. LASTING LIFESTYLES.

PEOPLE
EXPERIENCE
RESULTS

OUR PROCESS

01

INITIAL CONSULTATION

We take the time to understand your vision, lifestyle and property, offering expert advice and guidance from the very beginning.

02

DESIGN & DEVELOPMENT

Our team creates detailed designs, layouts and 3D visuals, working closely with you and your architect to refine every detail.

03

TECHNICAL PLANNING

We manage all technical specifications, structural requirements and system design, ensuring everything is engineered for performance, efficiency and longevity.

04

SYSTEM SUPPLY & CO-ORDINATION

We source and supply the highest quality products and systems, coordinating with specialist partners to ensure every element is aligned and ready for installation.

05

CONSTRUCTION & INSTALLATION

Our experienced installation teams deliver with precision and care, maintaining the highest standards of quality, safety and site management throughout the build.

06

HANDOVER & AFTERCARE

We ensure a smooth handover with full system training, documentation and ongoing support, so you can enjoy your new pool or wellness space with total peace of mind.

THREE POOL SHELL OPTIONS DESIGNED AROUND YOU

THE SAME COMMITMENT TO QUALITY. THREE EXCEPTIONAL SOLUTIONS.
WHICH ONE IS RIGHT FOR YOUR PROJECT?

FIBREGLASS ONE PIECE SHELL

A durable, low-maintenance solution, manufactured in one seamless piece for strength and reliability. Fibreglass pools offer a smooth, non-porous finish, fast installation and a wide range of sizes and styles to suit both modern and classic settings.

- ✓ One piece, seamless construction
- ✓ Smooth, non-porous finish
- ✓ Quick and efficient installation
- ✓ Durable and low maintenance
- ✓ Wide range of shapes, sizes and colours

POLYPROPYLENE ONE PIECE OR WELDED ON SITE

A highly versatile and premium option, polypropylene pools can be manufactured as a one piece shell or precisely welded on site for larger or bespoke designs. Renowned for their strength, chemical resistance and long lifespan, they are the ideal choice for customised pools with unique shapes or specifications.

- ✓ One piece or welded on site construction
- ✓ Extremely strong and durable
- ✓ Excellent chemical and UV resistance
- ✓ Fully bespoke sizes and designs
- ✓ Smooth, modern finish

GRP MOSAIC OR LARGE FORMAT TILED

Our bespoke GRP pools are built for complete design freedom, with the option of a one piece or sectional build to suit the project. Finished with either mosaic tiles or large format tiles, these pools deliver a truly luxurious, high-end finish with outstanding strength and flexibility.

- ✓ One piece or sectional construction
- ✓ Finished with mosaic or large format tiles
- ✓ Fully bespoke designs and dimensions
- ✓ Strong, lightweight and durable
- ✓ A premium, luxury finish

THREE EXPERTLY ENGINEERED SOLUTIONS. ENDLESS POSSIBILITIES.

POOLS & SPAS

FIBREGLASS POOLS

WHAT'S INCLUDED

A COMPLETE ONE PIECE SOLUTION

Our fibreglass pools are supplied as a fully integrated one piece shell with all the essential features and equipment included as standard, delivering a high-quality, low maintenance swimming pool that's built to last.

INTEGRATED SKIMMER

Discreetly integrated for a clean finish.

LED LIGHTING

High quality, energy efficient LED lights.

TEXTURED STEPS & BENCH

600mm wide entry steps on the right hand side with a full width bench end. Non-slip finish for safety and comfort.

SMOOTH INTERIOR FINISH

Non-porous, easy to clean and resistant to chemicals and UV

WATER RETURNS

Integrated return fittings for optimal water circulation.

INCLUDED IN EVERY FIBREGLASS POOL

HEAT RETENTION COVER & REEL

Reduces heat loss through the surface of the water when the pool is not in use.

POOL POD

A pre-fitted waterproof pool pod to house all of the important equipment to keep your pool running efficiently.

DELIVERY

Included in every pool order. (England mainland only – assumes 2 cart width)

LED LIGHTS

Ultra-bright lights illuminate your pool perfectly at night.

CHEMICAL PACKAGE

All you need to get you started.

POLYPROPYLENE POOLS

PRECISION MADE. BUILT AROUND YOU.

BESPOKE ONE-PIECE OR SITE-WELDED POOL SHELLS

Every shell is individually engineered and manufactured with exceptional attention to detail. Advanced polypropylene construction allows complete freedom of size, shape and specification, while delivering a smooth, durable and low-maintenance finish. Where access is restricted, the pool can be precision welded on site to create the same seamless result.

POOLS & SPAS

concept - design - build

- Fully bespoke to your imagination
- UK manufacturing
- Factory visits available
- Delivery on site within 12 weeks of order

- Mosaic or large-format finishes
- Exquisite precision
- Sectional builds or one piece
- UK & European installations

BESPOKE GRP POOLS & SPAS

THE FHL DIFFERENCE

Factory-built with precision and finished entirely around you, our bespoke GRP tiled pools and spas combine controlled craftsmanship, complete design freedom and a beautifully refined finish.

FASTER, PREDICTABLE DELIVERY

Manufacture takes place in controlled factory conditions, reducing weather-related delays and helping programmes stay on track. A completed shell can be installed in as little as one day, ready for field pipework and plant connection.

CRAFTED UNDER CONTROLLED CONDITIONS

GRP provides the same warranty confidence expected of concrete while offering enhanced access for future maintenance. Each stage is managed through documented quality control, signed off by the manufacturing manager and pre-water-tested before delivery to minimise on-site leakage issues.

DESIGNED WITHOUT LIMITS

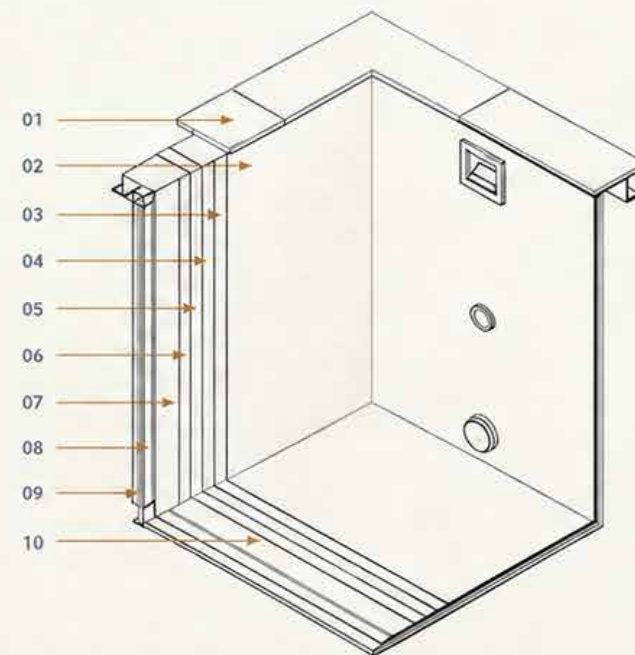

Every pool or spa can be tailored to the project, with exact positions selected for air jets, water jets, massage features, lighting and tile finishes. Further options include automatic pool covers, water features and air or water jet systems in white or colour-changing light formats, from compact to large.

WITH YOU FROM CONCEPT TO INSTALLATION

Clients are welcome to follow the product through manufacture, review progress at key stages and witness the quality of the finish first-hand. The result is a fully bespoke product shaped around individual requirements, with visibility and confidence throughout the build.
