Is the Board Engagement Advisor role pro-bono?

We offer a success-based compensation directly tied to the value you create. This outcome-driven model rewards you for each successful engagement. You will manage your own business expenses, including travel and related costs for client meetings, industry events, networking opportunities, etc.

Select pre-approved client engagements and strategic events may be sponsored by Board Match-Up for which we'll keep you informed on a case-by-case basis.

4

Can I participate while working full-time?

It may not be a right fit and we would not recommend this engagement for full-time corporate executives, as it may present potential conflicts of interest.

However, if you are a full-time portfolio professional, this engagement can be an excellent fit. It is designed to be flexible and to complement your existing career, allowing you to participate on a self-directed basis according to your availability and the opportunities you wish to pursue.
