

Wish List of Proposed Future Expenditures: Friends of Whitefish Dunes Inc. (October 2020)

---

- **BRACHIOPOD TRAIL:** Grading, apply gravel where needed, create handicapped parking area, signage as needed. Bench (perhaps two) at the lookout point. *Funds have been applied for to accomplish some of these areas.*
- **NATURALIST:** Secure funding for 2021 and beyond. There is some funding already in place for this.
- **GROOMING EQUIPMENT:** In the past we have put aside \$1,000 per year for replacement some date in the future.
- **GARAGE DOOR:** On the west side of the cold shop to make for easier use of the snowmobile equipment.
- **SKID STEER EQUIPMENT:** Used is about \$14,000, new about \$33,000.
- **PARK SIGNAGE:** Replacement and/or repair: We have received \$1000 (matching funds) from FWISP.
- **OLD BALDY:** Make it more accessible. May include repair of the stairway and boardwalks as needed; addition of handrails; trimming trees around platform to expand view; and potentially adding another platform above the existing one, to approximately 9 feet, or 15 steps, higher.
- **POLLINATOR GARDEN:** Signage needed.
- **NATIVE AMERICAN VILLAGE:** Repair/rebuild existing structures, to be coordinated with the county historical society. Signage. Expansion?
- **WHITEFISH BAY CREEK AREA:** Repair of the boardwalk; create a trail between the boardwalk to join the spur trail. Add a short boardwalk along the creek towards Clark Lake Road.
- **TRAIL BETWEEN CAVE POINT COUNTY AND WHITEFISH DUNES STATE PARK:** A permanent trail needs to be developed between the two parks to protect the bluff, trees and plants, as well as to ensure safety to walkers on the trail.

*Note that this is not a ranked list. The Board will consider ranking these wishes at a future meeting. Your input is appreciated.*
