CONNOR J. HENDERSON
Assistant Principals

In Honor of Will Volovich

Will continues to show talent and dedication to the field of design and engineering. He consistently demonstrates exceptional performance and a natural inclination for innovation and creativity. Will's ingenious ideas in Honors Design Studio and unique problem-solving skills set him apart. What truly distinguishes Will is his remarkable independence. He confidently takes charge of his work and often seeks out ways to help me with classroom projects and loves to help out with the many 3D printers we have in my classroom. His help in my classroom has been outstanding and I look forward to having him as a teaching assistant next year. With his relentless drive for a chance to “design” with excellence, Will embodies the epitome of a trailblazing engineer, destined to shape the future of his field.
