ABOUT US

Iconic Nurse Network Outreach Inc. is a nonprofit organization created to support healthcare needs in the community. We are bridging the gaps between medical experiences & clarity of treatment & illness.

**EDUCATION
AND
SUPPORT**

We do not give medical advice.

We are here to answer questions and give support during your child's hospital stay.

Please feel free to call or text us 24/7. We are here to support you during this difficult time. Our support team consist of experienced nurses. Our goal is to provide ease during this time.

**Message from the
Founder**

In September of 2021, I took my 16 year old son to the ER for stomach pain. What I then thought would be a routine ER visit, turned into surgery, a 2 week hospital stay, & multiple complications. As a mom, this event was scary & overwhelming. In spite of being a nurse for 20 years, it was still difficult. I met other moms who were forced to miss work or travel when they couldn't afford it but still had to be present for their child. It's hard enough to worry about your child but to worry when you have other kids, financial hardship & a job is a lot. Iconic Nurse Network Outreach, Inc was created because of this overwhelming experience.
