Call for Expression of Interest: Ferry Island Public Art

The Terrace Community Forest, in collaboration with the City of Terrace and support from the Skeena Salmon Arts Fest Society is planning on installing sculptures on Ferry Island in 2024. Artist's submissions will be kept on file for potential future public art installations.

This is a call to regional professional artists to submit an **Expression of Interest** to create and install public art. The 2024 budget is \$25,000, and is intended to include all costs, including creation and installation. The budget may be distributed to one or several artists, at the discretion of the Terrace Community Forest and the City of Terrace.

Your Expression of Interest needs to include:

- A summary of your professional art experience in public art.
- A concept design of the art you wish to create. A sketch showing dimensions and materials is fine.
- A conceptual plan for installation, including location on Ferry Island.
- A budget for detailed design, creation and installation.

The Expression of Interest **closes May 3, 2024**. Successful artists will be contacted to provide detailed design for formal review.

Please send your submission to the Terrace Community Forest at: haworth@citywest.ca
