Health Department**

Jenette Schuette, R.N.
Public Health Nurse, Administrator
Hodgeman County Health Officer

FOR IMMEDIATE RELEASE

November 5, 2020

Dear Parents:

HODGEMAN COUNTY- The Hodgeman County Health Department has been notified of a potential exposure of COVID-19 that took place at the Presbyterian Church Good News program on Wednesday November 4, 2020. Parents with children who attended Good News on this date should monitor their children for symptoms of COVID-19 for 14 days from November 4, 2020.

This decision has been made based on that knowledge that an unknown amount of exposure potentially took place to each child in attendance. The symptoms that should be monitored for include fever, cough, chills, muscle aches, sore throat, new loss of smell or taste, fatigue, diarrhea, shortness of breath, and/or difficulty breathing. If symptoms develop, please stay home and contact your health care provider or the local health department for guidance regarding testing. In an emergency, please call 911 and notify first responders that your child was potentially exposed to COVID-19 and, if possible, be wearing a face mask when they arrive.

If you have questions or concerns regarding this notice please call the Hodgeman County Health Department at 620-357-8736.

Jenette Schuette, RN, Adm.
