I am a 46 year old single mother who wants so badly to go back to school and earn my degree in Human Resources Management. I would like some assistance, not loans, with tuition and books. Can you direct me to some websites where I can find this assistance?

## 3. Julia wrote:

Honestly Tawana I would cancel my loans at Keiser and enroll in a community college. PRIVATE FOR PROFIT, colleges are the best way to enter debt. If there's anyway you get out do it right away. A community college has lower tuition and much greater advantages of getting financial aid. Good luck.

I am a 23 year old college "kick out" who has recently enrolled back in school at a local community college. I have already wasted so much time in school and I am back with a renewed motivation. I now appreciate the value of an education and I'm willing to fight for it, HARD! What is my best course of action for letting go of my past mistakes, and becoming a broadcast journalist in the future?

My daughter is an African-American freshman at University. She is looking for any grants which she can apply for which will help in her quest to become a psychologist. What is the best way to go about finding such things, if they are out there. She also runs track (hurdles), did very well on her SAT test, and received college credit for both of her AP (Advanced Placement) courses.

Replying to Sharon and anyone else that can use this information: I am a 41 year old woman who was laid off last year due to downsizing from the trucking industry, and decided to subsequently enroll in Stark State College as a PTA major. I was a veteran during Desert Storm, but allowed my VA education benefits to expire due to the fact that I felt that I needed to work full time to raise my children. Since I am laid off I was eligible for the Pell Grant, and took out Student Loans as well. However, a few months ago I found out from another veteran that Congress made more education benefits available for veterans even if they allowed their GI bill benefits to expire. Additionally, there is another program called VRAP that will send 50,000 veterans to school and pay 18,000 – or about 1,473/month. If you are a veteran, please check into this.

I am a 33 year old woman. I graduated from The University of South Carolina in 2005 with a BA in Journalism and Mass Communications. However, the degree has gotten me nowhere but in debt with student loans. I cannot even find a decent job with the degree. I have been denied even a simple office job. I wrote for a local paper a few years ago, but it ended up closing down. Now I am trying to get back into school at Midlands Technical College to pursue a degree in Physical Therapy. I desperately need help and do not wish to burden myself with more student loan debt. I am going to ask for God's guidance to be able to fill out and hopefully receive a grant so that I may reach my full potential as a PTA then later a Doctor of Physical Therapy.

I am a 47 year old mother of two where one has already graduated from college and the other, a sophomore in college. I went back to school a few years ago and received an Associates, but realizing that now, not only is it not enough, but I want more. I have a desire to help the at risk youth in my community who are lacking, and as I do it now with NO assistance, or degree, but I realized, that I need to pursue my bachelors to accomplish more, to help more. While I have one in college now, I just cannot afford to put myself back in school, and still currently paying on loans. As my desire is strong to encourage, motivate, elevate, educate and dedicate myself for and to the youth in my community, with or without a bachelors, I just know that going back to school and receiving that degree will help make a difference in what I can continue to do. I am looking for a grant that will help me get that degree, and take the next step and help bridging the gap where youth will stay and graduate from high school and further their education, verses going to jail, prison, dropping out and selling/using drugs or becoming young parents with little or no life skills as well as no education. I am determined to do whatever I can to succeed, and to also see the minority youth succeed in this community. While they are constantly set up for failure, I am one is determined to advocate and fight for these kids to become what they believe. Please help

Hello,

I am currently attending college and I am heading towards my final year and I am not able to finish due to not having enough financial aid. I went to a school prior to this one that closed abruptly in 2015 with no notice(I was two semesters shy of my degree in criminal justice)unfortunately it took me a year to get my transcripts and find a school that would take some of my credits i did and they only accepted 10 credits. I qualified for a school disclosure discharge of loans but never got approved due to me using ten credits from my prior school that closed. I cant afford to take out a loan, and im stuck paying for loans from a school that closed. I am trying to become a crime scene investigator and its not possible without a degree. I just would like to finish this well over due degree. My current school needs 29,000 in order for me to finish out my degree...Please help me and let me know if its possible for you to help Thanks advance

As far as my ambitions and goals in life, I will become a

Speech and language pathologist as well as an interpreter for many languages such as Spanish which is like my second language, American Sign Language and many more. I plan to interpret for deaf and or people from other countries as well as provide help to those who struggle with speech impediments, those who struggled from strokes as well. I was born with moderate hearing loss in my right ear until recently I had a stapedectomy and now have almost 100% hearing in my right ear. Although I didn't suffer from speech issues I know what it's like to not hear things clearly and to experience people being impatient with me not hearing them the first or second time.
