Summer Internship and Fellowship Opportunities for Students of Color

Arts

The Smithsonian Opportunities for Research and Study

The Office of Fellowships offers a number of opportunities to increase participation of minority groups who are underrepresented in the Smithsonian scholarly program in the disciplines of research conducted at the Institution and in the museum field. Stipend awards are available for interns to participate in supervised on-going research or museum-related activities for periods of 10 weeks. Usually internships run for a ten-week period during the summer. For applications and further information on internships and fellowships refer to the website.

Business

Coro Kansas City-Summer Internship in Public Affairs

The Summer Internship in Public Affairs is a full-time, ten-week summer program, whose purpose is to develop future community leaders through exposure to community issues, skill development, civic leaders and organizations. The program is demanding, full-time, and requires an interest in public affairs. Each intern is assigned a brief, individual internship in business, government, labor, media, or non-profit organizations. Preferential consideration is given to applicants from the Greater Kansas City area or to those who intend to include Kansas City in their future plans. Both undergraduate and graduate students are eligible to apply. Twelve interns are selected every summer. Interns receive a stipend.

The Fund for American States-Bryce Harlow Institute on Business and Government Affairs

The Bryce Harlow Institute on Business and Government Affairs (IBGA) is a pro-business internship and educational program that has provided hundreds of students with important lessons about the link between free

enterprise and government. IBGA is designed for those interested in business, public policy, and national politics, serving as a stepping stone for future careers. By meeting with government relations and lobbying experts from a wide range of industries, and studying the economics of politics, you will learn how companies represent their interests in the nation's capital. As part of the Institute experience, students also attend the program's annual Congressional Scholarship Awards Dinner, where senators are honored for their service to our nation. Students are enrolled at Georgetown University, live in a furnished apartment on campus in the center of D.C., and are placed in a competitive internship for eight weeks. The total cost of the program is between \$5,000 and \$6,000, but scholarships are available.

Harvard Business School-Summer Venture in Management Program (SVMP)

The Summer Venture in Management Program, a week-long program at the Harvard Business School, is designed to expose talented minority college students to general management in the business world. Using the renowned case method of instruction, HBS faculty lead class discussions on current management issues. Participants spend evenings analyzing real-business cases, and use morning study groups and classes to examine and debate their ideas through lively interaction with peers and faculty. This is the life of an MBA student at HBS. The academic program is supplemented by presentations from HBS administrators and alumni who provide information about the impact that an MBA degree can have on their lives and careers. Applicants must have completed their junior year of college.

MANA Internship Program

MANA, a National Latina Organization, is a national membership organization that empowers Latinas through leadership development and community action. Through the support of General Motors and the Verizon Foundation, MANA is able to provide small stipends to summer interns at the Chapter level and the National level. High school and college Latina students will be able to intern at one of the organization's chapters or at the national office in Washington, DC, supporting MANA community programs, especially the Hermanitas Program.

Students will acquire valuable skills and networking opportunities that will help them in their future careers. For an internship at one of MANA's chapters, students need to contact their local chapter. For an internship in Washington, DC, students need to contact MANA's national office.

National Association for Stock Car Auto Racing (NASCAR)-Diversity Internship Program

The NASCAR Diversity Internship Program will employ college/university students in a ten-week summer program designed to introduce them to the world of NASCAR and the exciting career opportunities available throughout the motorsports industry. The Program is designed to support deserving students with an interest in the motorsports industry, who are of Alaskan Native, American Indian, Asian/Pacific Island, African American, Hispanic, or of other racial minority descent. The internships are nationwide in several industry fields, including broadcasting, sales, and sports marketing. In addition to a salary, interns receive a monthly housing stipend.

National Hispana Leadership Institute-Latinas Learning to Lead Summer Youth Institute

The National Hispana Leadership Institute (NHLI) Latinas Learning to Lead Summer Youth Institute's main purpose is to train the next generation of Latina leaders. It combines leadership training with technical and practical experience in a one-week comprehensive program in Washington, DC. The Institute focuses on personal and career planning, health and well-being, entrepreneurship, and leadership skills. Participants will have the opportunity to interact with high level Latina/o leaders during lectures, group exercises, and site visits. Young Latinas between the ages of 17 and 22 who are currently enrolled in an undergraduate program are eligible to apply. Requirements include a 2.5 GPA, demonstrated leadership, and a strong commitment to Latina/o issues. Up to 20 Latina undergraduate college students from diverse geographical areas and ethnic subgroups within the Hispanic community will be selected each year. NHLI will cover airfare, room and board, and all classroom materials needed for the program.

Sponsors for Educational Opportunity (SEO)-Career Program

Sponsors for Educational Opportunity is the nation's premiere summer internship program for talented students of color leading to full-time job offers. Since its inception, SEO's Career Program has placed over 3,500 Black, Hispanic/Latino, Asian and Native American students in internships that lead to opportunities in exciting and rewarding careers in the most competitive industries worldwide. The SEO Career Program offers summer internship opportunities in fields as varied as accounting, asset management, corporate law, information technology, investment banking, management consulting, media, and philanthropy. SEO interns receive a comprehensive internship experience that goes far beyond simply placing students at companies for the summer. Interns gain exposure to CEOs and top executives of partner firms through the SEO Summer Seminar Series. We offer intensive training before and during the internship. Each intern is supported by an extensive mentoring program, and is welcomed into a powerful alumni network comprised of more than 4,000 alumni in 43 states and 30 countries. Combined, these resources put our interns on the fastest track to some of the most financially rewarding career opportunities in the world. SEO Career Program interns have been turning their summer experiences into successful careers for 25 years.

United Negro College Fund Scholars Programs

UNCF Corporate Scholars Programs help college students gain invaluable professional experience through paid internships at America's leading Fortune 500 corporations and national organizations. Students also receive up to a \$10,000 scholarship. Many of the internships are renewable. The ultimate goal of the program is to ensure that successful corporations have a ready pool of well-trained, ethnically diverse young professionals who can create the products and efficiencies companies need to compete in the dynamic, globally integrated marketplace of today. Eligibility requirements are different for each program. Hundreds of students have participated in the program, resulting in money for college and abundant job offers. U.S. Department of Energy-Summer Diversity Partnership Program (SDPP)

The Department of Energy (DOE) is committed to training the next generation of scientists and engineers. Students thinking about launching a career in science, engineering, or technology should consider an internship at the DOE. The SDPP summer internship program offers talented college students summer employment positions with the U.S. Department of Energy and its national laboratories in scientific research, policy, business, and government relations. All internships include paid housing, a stipend, meals, airfare, and a 3 credit class at American University.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help

evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Deadline: November

Contact: Email: cbllassengale@ap.org

Association of Community Organizations for Reform Now (ACORN)-Communications Internship

ACORN, the nation's largest community organization of low and moderate-income families, offers a Communications Internship in its Washington, DC office. This internship in Washington, D.C., involves work for ACORN's Communications department. The job will involve learning to work with reporters. Duties will include: database research, assisting ACORN members in working with the media, writing short articles for internal publications, assisting local ACORN offices with press plans, making calls to media outlets, sending faxes and emails, organizing press clippings, producing press kits, and assisting at press events. As part of the job, it will be necessary to acquire a familiarity with a number of areas ACORN works in, including fighting predatory lending, campaigning for living wage laws, and promoting affordable housing. Intern receives a stipend.

Dow Jones Newspaper Fund-Business Reporting Program

The Dow Jones Newspaper Fund's Business Reporting Program is specifically designed for minority sophomores and juniors. Interns cover business and consumer news at daily newspapers and financial news wires. They attend a training seminar at New York University's Department of Journalism and Mass Communication in Manhattan. The summer program provides free pre-internship training seminars on college campuses and weekly salaries for a minimum of 10 weeks. Interns who return to college full-time the following fall will receive scholarships from the Fund. Some participating news organizations include The Wall Street Journal, The Associated Press, and The New York Times.

The Fund for American States-Institute on Political Journalism

For approximately thirty-six hours a week, you will intern in a Washington media organization. Sponsors include print and broadcast media outlets news services, internet publications and PR firms. The IPJ staff will match you

with an internship that best meets your interests and level of skill. Students who plan on seeking a broadcast journalism internship are encouraged to apply early, as these internships are very competitive and need to be secured in early spring. Intern responsibilities vary, but often include covering congressional hearings, drafting articles for publication, editing and producing news stories, researching, writing press releases, assisting with media relations, and general administrative office work. The Institute selects many of the best undergraduate journalism students in the country to attend this Institute each summer, where they attend classes in economics, ethics, and leadership and also serve in internships in major news organizations. Participants also attend regular briefings at principal news sites such as Congress, the White House, the State Department, and the Pentagon. Students are enrolled at Georgetown University, live in a furnished apartment on campus in the center of D.C., and are placed in a competitive internship for eight weeks. Each summer, 85 students from across the country are selected. The total cost of the program is between \$5,000 and \$6,000, but scholarships are available.

Hispanic Link Journalism Foundation

In 1995, the Hispanic Link Journalism Foundation was created to provide Hispanics with opportunities to sharpen their writing skills, pursue journalism careers, and educate the general population nationally and internationally on issues relevant to Hispanics. Paid and unpaid internships, including work-study, are available throughout the year with the Hispanic Link News Service, a national news agency founded in 1980. The Foundation provides high-quality learning experiences to enhance participants' academic, civic, and professional development. Each placement is designed to provide a challenging work environment in which individuals can expand their expertise and develop new skills.

League of United Latin American Citizens (LULAC)

The League of United Latin American Citizens, this country's oldest and largest civil rights organization, seeks several highly talented and dedicated interns for our national office in Washington D.C. Interns can choose to work with our policy, communications, membership, events, development, education, fiscal or executive departments. The positions are unpaid and without stipends. LULAC interns are engaged in a number of hands-on activities which vary depending upon the division of LULAC they choose to work with. We rely heavily on our interns to help us carry out the important work of LULAC to advance the cause of Hispanic Americans in the United States. Applicants are required to have excellent academic records and strong writing and communication skills. Thorough knowledge of the Hispanic community and current issues is a plus. Applicants should also have a deep sense of commitment to advancing the rights of Hispanic Americans. Ability to write and speak Spanish and English fluently is highly desirable as is extensive experience with using computers.

National Partnership for Women and Families

The National Partnership for Women and Families is a non-profit, non-partisan organization that uses public education and advocacy to promote fairness in the workplace, quality health care, and policies that help women and men meet the dual demands of work and family. The National Partnership invites bright, energetic women and men who are passionate about our issues to apply for internships. This is an opportunity to learn from seasoned professionals, to work inside the advocacy/public policy community, and to advance issues that have a direct impact on women and families nationwide. The National Partnership for Women and Families seeks interns for various positions. Internships are unpaid and are offered throughout the year.

Southwest Voter Registration Education Project (SVREP)

SVREP, a national non-profit non-partisan organization dedicated to the empowerment of the Latino and other ethnic communities through voter registration and mobilization efforts, offers several unpaid summer internships to high school, undergraduate and graduate students. SVREP interns can work on a multitude of projects ranging from general office administration, field organizing and administration, leadership training, public relations/media, and development/special event planning. The ideal intern will be able to multi-task, prioritize among assignments, meet deadlines, work with little or no supervision, and be available 10-20 hours a week. Internships are available in San Antonio, Los Angeles, and Miami.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Education

League of United Latin American Citizens (LULAC)

The League of United Latin American Citizens, this country's oldest and largest civil rights organization, seeks several highly talented and dedicated interns for our national office in Washington D.C. Interns can choose to work with our policy, communications, membership, events, development, education, fiscal or executive departments. The positions are unpaid and without stipends. LULAC interns are engaged in a number of hands-on activities which vary depending upon the division of LULAC they choose to work with. We rely heavily on our interns to help us carry out the important work of LULAC to advance the cause of Hispanic Americans in the United States. Applicants are required to have excellent academic records and strong writing and communication skills. Thorough knowledge of the Hispanic community and current issues is a plus. Applicants should also have a deep sense of commitment to advancing the rights of Hispanic Americans. Ability to write and speak Spanish and English fluently is highly desirable as is extensive experience with using computers.

Barbara Jordan Health Policy Scholars Program

The Barbara Jordan Health Policy Scholars Program seeks to increase the number of minority health policy professionals. Each year, 13 college students from underprivileged backgrounds are selected to work in Washington, DC for nine weeks in a congressional office. Scholars gain exposure to health policy issues and first-hand understanding of how the federal government works. Seminars, lectures, and field trips augment the work experience of the Scholars. The program provides a stipend, roundtrip transportation, summer dormitory housing, and money for daily expenses. Candidates must be U.S. citizens and either rising seniors (entering their senior year during internship), in their senior year of undergraduate study, or have graduated within the last twelve months from an accredited U.S. college or university.

Coro Kansas City-Summer Internship in Public Affairs

The Summer Internship in Public Affairs is a full-time, ten-week summer program, whose purpose is to develop future community leaders through exposure to community issues, skill development, civic leaders and organizations. The program is demanding, full-time, and requires an interest in public affairs. Each intern is assigned a brief, individual internship in business, government, labor, media, or non-profit organizations. Preferential consideration is given to applicants from the Greater Kansas City area or to those who intend to include Kansas City in their future plans. Both undergraduate and graduate students are eligible to apply. Twelve interns are selected every summer. Interns receive a stipend.

Federal Bureau of Investigation (FBI)-Honors Internship Program

Each summer, a group of outstanding undergraduate juniors and full-time graduate students are selected to participate in the FBI Honors Internship Program in Washington, DC. The program offers students an exciting insider's view of FBI operations and provides them with the opportunity to explore the many career opportunities within the Bureau. Due to the very selective and highly competitive nature of the Honors Internship Program, a limited number of internships are awarded each summer. Only individuals possessing strong academic credentials, outstanding character, a high degree of motivation, and the willingness to represent the FBI upon returning to their respective campus will be selected. All expenses incurred by interns for travel and transportation to and from Washington, DC will be reimbursed by the FBI. Internships are paid. Housing is not provided.

Feminist Majority Foundation-Internship Program

The Feminist Majority Foundation, one of the nation's leading research and advocacy organizations for women's rights, develops creative long-term strategies and permanent solutions for the pervasive social, political, and economic obstacles facing women. Every year, the Feminist Majority Foundation seeks highly motivated undergraduate students who aspire to become leaders in the feminist movement to serve as interns in its Washington, DC and Los Angeles offices. Each intern is given a wide variety of responsibilities, such as monitoring press conferences and public hearings, researching, writing, policy analysis, and organizing events and demonstrations. Full-time internships, which run for a minimum of two months, are available year-round. Interns usually work 35-40 hours a week. Full or part-time internships are also available during the spring and fall

semesters. Positions are not paid. Undergraduate feminist women and men in all majors are encouraged to apply, especially those who have experience working on women's issues.

The Fund for American States-Bryce Harlow Institute on Business and Government Affairs

The Bryce Harlow Institute on Business and Government Affairs (IBGA) is a pro-business internship and educational program that has provided hundreds of students with important lessons about the link between free enterprise and government. IBGA is designed for those interested in business, public policy, and national politics, serving as a stepping stone for future careers. By meeting with government relations and lobbying experts from a wide range of industries, and studying the economics of politics, you will learn how companies represent their interests in the nation's capital. As part of the Institute experience, students also attend the program's annual Congressional Scholarship Awards Dinner, where senators are honored for their service to our nation. Students are enrolled at Georgetown University, live in a furnished apartment on campus in the center of D.C., and are placed in a competitive internship for eight weeks. The total cost of the program is between \$5,000 and \$6,000, but scholarships are available.

The Fund for American States-Engalitcheff Institute on Comparative Political and Economic Systems

Approximately 120 undergraduate leaders attend the Engalitcheff Institute on Comparative Political and Economic Systems (ICPES) in order to gain real-world experience in the nation's capital interning on Capitol Hill, at a federal agency, think tank, political group, or international affairs organization. One of Washington's top academic and internship programs, ICPES has provided undergraduates with the ultimate Washington, DC summer experience for the last thirty years. ICPES is ideal for political science, international relations, or economics majors. As part of the Institute experience, ICPES students gain exclusive visits to the White House, US Capitol, The Federal Reserve, State Department, and CIA headquarters. Students are addressed by leaders and

policy-makers at these site briefings. In addition, students are exposed to the Judd Lecture Series on foreign policy and economics given by internationally-recognized economists. With a single application, students are enrolled at Georgetown University, live in a furnished apartment on campus in the center of D.C., and are placed in a competitive internship for eight weeks. The total cost of the program is between \$5,000 and \$6,000, but scholarships are available.

George Washington University-Semester in Washington Program

George Washington University's Semester in Washington Program offers undergraduate students from across the country a "behind the scenes" look at politics and government. The Semester In Washington staff works directly with each SIW student to identify professional objectives and offer extensive resources to assist students in securing rewarding internships. Interns can choose to work on Capitol Hill, in the White House, at associations or lobbying firms, public interest organizations, public opinion research organizations, media consulting firms, or news organizations. The compensation for any given internship is determined by the preferences of the organization and the student involved. The program also offers students special Friday networking events and career workshops that help them develop a professional network of their own.

Mexican American Legislative Foundation, Inc.-Moreno/Rangel Legislative Leadership Program

The Moreno/Rangel Legislative Leadership Program provides a unique opportunity for Latino/a undergraduate and graduate students from across Texas to gain first-hand governmental experience working in the Texas House of Representatives during legislative session. Named after the longest serving Hispanic member of the Texas House of Representatives, Paul C. Moreno (El Paso), and the late Irma Rangel (Kingsville), the first Mexican American woman to serve in the Texas Legislature, the program places students with members of the Texas House of Representatives. Students serve as full-time policy Interns (undergraduates) or Fellows (graduate students) and work alongside experienced legislative staff. They participate in weekly seminars with the opportunity to interact with other interns and fellows, elected officials, community and policy leaders, and state agency representatives. The program also emphasizes communications training and skill building for more effective participation in the legislative process.

Minority Access-Internship Program

The Minority Access Internship Program is designed to allow talented undergraduate and graduate students experience the diversity and scope of career opportunities available in the federal government and other participating entities. The program provides students with the opportunity to merge academic theory with practical application in the workplace. Minority Access interns receive pre-employment training, expert counseling on career choices, financial management and professional development, and recognition for fulfilling the requirements of the program. The Minority Access Internship Program staff is available at all times to lend assistance to the interns. Full-time internships are available in the summer, and full-time and part-time internships are available in the spring and fall semesters. All internships are paid positions and most include round-trip travel.

National Organization for Women (NOW)

NOW, the largest feminist organization in the United States was founded in 1966 to end the injustice and inequality women face daily. NOW offers full-time and part-time unpaid internships throughout the year for undergraduate and graduate students. Prospective interns should be hard working, enthusiastic, and flexible individuals who possess or seek a working knowledge of women's issues and feminist organizing. Interns should also be committed to continuing the struggle for equality and justice once they leave the internship program and return to their campuses and communities. As interns with the National NOW Action Center, students will be in the front lines of the women's rights movement.

New York State Senate-Undergraduate Session Assistants Program

The program is intended to provide talented and able undergraduate students with firsthand experience of New York State government at the legislative level: to promote the expectations of faculty and students and to introduce real experience to their on-campus academic endeavors. Up to 62 Session Assistants may be designated each session. This Senate initiative is meant to foster an appreciative understanding of the roles of process, personalities, and problem-solving in state government, bolstering home campus studies. The opportunity to observe policy development is unparalleled. Freshmen are ineligible. Interns receive a stipend.

Organization of Chinese Americans

The OCA Internship Program also exposes interns to other aspects of D.C. Last year, intern visits included Congressional offices, where interns met with Representatives, APA staffers, and members of the Congressional APA Caucus. They also met with members of the Department of Justice and discussed issues concerning civil rights and voting rights. Interns will have a lot of hands on experience at the offices in which they are placed. The OCA internships are a great way for student leaders to learn about OCA, current issues facing Asian Pacific Americans, and while experiencing the day to day activities of internet company.

Public Campaign-Summer Democracy Internship

Public Campaign is a public interest organization whose goal is a fundamental overhaul of the campaign finance system. By working closely with advocates throughout the country, Public Campaign promotes a policy known as Clean Money Campaign Reform, the centerpiece of which is full public financing of elections. The intent of Clean Money is to create a system where a diverse group of good candidates without personal wealth or connections to special interests can mount competitive campaigns for elected office. Interns on the Democracy Team will have a chance to put their communication and organizational skills to work, collaborate on new projects, and spend time with staff members in different departments getting an inside look at how the organization is run. Staff can share knowledge, career advice, workplace mentoring and can work with interns to

tailor assignments to best utilize their skills to gain valuable experience - all the while working to further Public Campaign's mission.

Web site: <http://www.publiccampaign.org/>

Deadline: April

Puerto Rico Federal Affairs Administration (PRFAA)-Internship Program

PRFAA serves as the Office of the Commonwealth of Puerto Rico in Washington, DC. Its mission is to advance the interests, priorities, and goals of the Commonwealth, its people, and the growing Puerto Rican population across the U.S. The PRFAA Internship Program is aimed at college and graduate school students in any field of study. Its objectives are to encourage students to consider careers in government service, to provide them with valuable, hands-on work experience and to increase their knowledge of relevant and timely issues affecting Puerto Rico. The program is designed to allow the student to explore a variety of interests while concentrating on long-term projects under the supervision of a Staff Mentor. Educational and social activities scheduled throughout the semester will complement the intern's experience and allow for further learning outside of the office. Interns' duties will vary depending on the division to which they are assigned. PRFAA offers summer, fall and spring term internships. Most internships will be unpaid. Applicants must be undergraduate or graduate students, must possess excellent oral and written communication skills in both Spanish and English, and must have first-rate research skills.

Southwest Voter Registration Education Project (SVREP)

SVREP, a national non-profit non-partisan organization dedicated to the empowerment of the Latino and other ethnic communities through voter registration and mobilization efforts, offers several unpaid summer internships to high school, undergraduate and graduate students. SVREP interns can work on a multitude of projects ranging from general office administration, field organizing and administration, leadership training, public relations/media, and development/special event planning. The ideal intern will be able to multi-task, prioritize among assignments, meet deadlines, work with little or no supervision, and be available 10-20 hours a week.

Internships are available in San Antonio, Los Angeles, and Miami.

U.S. Hispanic Leadership Institute (USHLI)-21ST Century Leaders Internship Program

The 21st Century Leaders Internship Program is a paid 10-week summer internship program that enables college students to develop more effective community organizing and leadership skills. Students are mentored by an elected official or director of a community based organization. The qualitative goal is to provide the student the opportunity to experience first-hand and better understand the dynamics of social change. The quantitative goal is for each intern to register 500 new voters. Interns receive a stipend.

University of California, Berkeley-Public Policy and International Affairs (PPIA) Summer Institute

The UCPPIA Summer Institute helps prepare future leaders who possess a commitment to public service and, in particular, to addressing policy issues most affecting historically underserved communities and people of color. The Junior Summer Institute at UC Berkeley offers student participants a rigorous seven-week program of coursework designed to improve the participants' analytical and quantitative skills vital to success at top-level graduate programs in public policy and international affairs. Additionally, the Institute includes a variety of activities intended to give participants a comprehensive knowledge of the opportunities for professional careers in public service. Each year the program admits approximately 30 undergraduates from across the nation. Students selected for the Institute will receive a stipend, assistance with travel expenses, university housing with a meal plan, books and course supplies, and a GRE preparation course.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Advocates for Youth-General Internship

Advocates for Youth is the only national organization dedicated exclusively to the advancement of adolescent sexual and reproductive health. Advocates for Youth's program and policy departments promote the health of adolescents worldwide with a focus on the prevention of unintended teenage pregnancy and the spread of sexually transmitted diseases (STDs), including HIV/AIDS, through access to health services and information. Advocates for Youth values the opportunity for interns to be a part of its work. The goal of Advocates' internship program is to provide undergraduate/graduate students with a successful and meaningful opportunity to learn about Advocates' mission and programs, contribute to the work of the organization during a limited time period, and gain meaningful professional experience. Advocates offers a limited number of paid internships. Compensation will be based on the District of Columbia's minimum wage for each hour worked.

Albert Einstein College of Medicine of Yeshiva University-Minority Student Summer Research Opportunity

MSSROP will provide participants with nine weeks of research experience in conducting biomedical research. Students participating in the program will conduct research under the direction of a faculty member at the Albert Einstein College of Medicine. Research assignments will be made based upon availability of research opportunities and according to the mutual interests of the faculty sponsors and student participants. In addition to research training, participants will attend a special seminar/lecture series. Frequent meetings with other program participants along with one or more of the faculty sponsors will be scheduled as well as weekly seminars, workshops and lectures. At the end of the 9 week period, each student will present her or his work to other students and the faculty sponsors. Each student will also be expected to write a report concerning the research work conducted and its relation to other work in progress at her or his site. College sophomores or juniors are encouraged to apply. Campus housing will be available at no cost for students not able to commute.

Association of American Medical Colleges-Summer Medical Education Program

The Summer Medical Education Program (SMEP), formerly the Minority Medical Education Program (MMEP), has a long and distinguished history as a national academic enrichment program that helps promising, highly motivated students gain admission to medical school. SMEP prepares students for the competitive medical school admission process. Of all the SMEP graduates who have applied to medical school, 63% have been accepted. Created in 1988, and funded by The Robert Wood Johnson Foundation, the summer program accepts undergraduate and post-baccalaureate students who are interested in careers in the health professions. SMEP is committed to helping create a well-trained, diverse physician and health-professions workforce. It is intended for students who are strong advocates for diversity and/or who come from groups that are underrepresented in medicine. For instance, applicants may come from economically disadvantaged backgrounds, racial and ethnic groups that historically have been underrepresented in medicine, or parts of the country (such as rural areas) where residents historically have been underrepresented in medicine. All students with a commitment to workforce diversity -- in the widest and most inclusive sense of the word -- are welcome in SMEP.

SMEP is a free (full tuition, housing, and meals) six-week summer medical school preparatory program offering eligible students intensive and personalized medical school preparation. A well-established and well-respected national academic enrichment program, SMEP is located at 11 medical school sites around the country.

- University of Alabama School of Medicine
- Baylor College of Medicine and Rice University

Barbara Jordan Health Policy Scholars Program

The Barbara Jordan Health Policy Scholars Program seeks to increase the number of minority health policy professionals. Each year, 13 college students from underprivileged backgrounds are selected to work in Washington, DC for nine weeks in a congressional office. Scholars gain exposure to health policy issues and first-hand understanding of how the federal government works. Seminars, lectures, and field trips augment the work experience of the Scholars. The program provides a stipend, roundtrip transportation, summer dormitory housing, and money for daily expenses. Candidates must be U.S. citizens and either rising seniors (entering their senior year during internship), in their senior year of undergraduate study, or have graduated within the last twelve months from an accredited U.S. college or university.

Cornell/Rockefeller/Sloan-Kettering Tri-Institutional MD-PhD Program

The Tri-Institutional MD-PhD Program has developed the Gateways to the Laboratory Program, an undergraduate summer research program for underrepresented minority students in their freshman and sophomore years of college. Each student receives a stipend for the ten-week period. Students are also reimbursed for travel expenses. On-campus housing is available. The Gateways to the Laboratory Program takes up to 15 students per summer. In addition to conducting independent research projects at one of our three institutions, Gateways students participate in weekly journal clubs, laboratory technique workshop, clinical skills workshop, mock MCAT exam and a Gross Anatomy lecture and tour. Gateways students scrub into numerous surgeries at the New York Presbyterian Hospital. At the end of the summer, family and friends are invited to attend the Gateways students' oral, written and poster presentations of their summer's research. In addition, students are sent to two national conferences to present their research. Each Gateways student is assigned a Big Brother/Sister who is a current MD-PhD student in our program. Students receive a generous stipend and are reimbursed for their travel expenses. Housing is available for students who live some distance from New York City.

Cornell University, The Travelers Summer Research Fellowship Program For Premedical Minority Students

The Travelers Summer Research Fellowship Program is designed to give 25 premedical students deeper insights into the field of medicine, including issues that greatly affect the health of traditionally underserved groups. Through the experiences of laboratory or clinical research, the student learn show one pursues a specific research problem under the supervision of a faculty member, thus providing an early education into basic research techniques that could be applicable to any area of medicine. A lecture series explores topics in cardiovascular physiology, exposing the students to basic science concepts that are relevant to a more specific understanding of hypertension and cardiovascular disease, both of which are major problems in minority communities. The summer fellows attend a series of talks by minority physicians about various medical specialties, addressing issues of concern in these physician's daily work plus views of the bigger picture in health care to minority communities. Rounds in the hospital with advanced year students provide further exposure to the clinical facets of medicine. Students in the summer program receive counseling on financial planning for medical school and how to examine the financial aid package. Students receive a \$140-a-week cost-of-living allowance and are housed rent - free in the dormitory for medical students, but are required to pay for their meals and other living expenses. Travel expenses are paid for students that live some distance from New York.

Duke University Summer Research Opportunities Program in the Biological Sciences (SROP)

The Duke University Summer Research Opportunity Program (SROP) is a ten-week training program designed to give underrepresented minority undergraduate students hands-on experience in graduate-level biomedical research. The Program is designed for students who are seriously considering joining a Ph.D. Graduate Program following the completion of their undergraduate degree. The Program emphasizes direct laboratory experience. Students spend a large majority of their time working in the laboratory, attending lab meetings, interacting with members of other labs, and otherwise conducting themselves just as though they had entered graduate school. Each student works under the supervision of a faculty mentor and will solve real research problems in an active, modern biomedical research laboratory. In addition to laboratory research, the Program features a weekly research seminar and social hour, a workshop about how to successfully apply to graduate school, and a closing symposium in which all the students present their results in a poster session. Students will receive a stipend, plus an on-campus room, travel assistance, and a food allowance.

The Headlands Indian Health Careers Program

Headlands Indian Health Careers is an *intense* academic enrichment and reinforcement program consisting of mini-block courses in calculus, chemistry, physics, biology, writing and other communication skills. Courses are designed to increase the student's background and skills so s/he is better prepared for required college-level math and science course work in pre-health programs. These courses improve study habits for college work, raise the student's chances of success in college, and increase the probability of admission to a health professional school. Topics are presented in a series of lectures and laboratories, supplemented with individual tutorials. The program also informs students of the variety of health careers available, especially the need for American Indian health professionals. Special lectures concerning medicine and the healing arts in American Indian culture will be given by prominent American Indian health personnel. The program is aimed at high school seniors and college freshmen and runs from June to July. Older students may be interested in counselor positions.

Hispanic-Serving Health Professions Schools, Inc. (HSHPS)/CDC-Health Professions Student Internship Program

The purpose of the HSHPS/CDC Student Internship is to foster the development of public health and research skills of Hispanic Health Professions students in order to increase the number of individuals who pursue careers in epidemiology, preventive medicine, and public health research. The internship provides an 8-week enriching experience at the central offices of the CDC in Atlanta, GA. The internship experience is intended to equip students with the research/clinical experiences that will expose them to current techniques in surveillance and interventions directed at improving the health of Hispanic populations. The HSHPS/CDC Internship Program will cover the students' costs for travel, housing, transportation, and miscellaneous expenses.

Institute for Mental Health Initiatives (IMHI)

IMHI works with the media, communities and academia to translate mental health research into practical concepts that everyone can understand and use in their daily lives. Interns are directly involved in projects at IMHI working alongside experienced mental health and public health professionals, researchers, the media, members of the local community and an extensive network of resources within The George Washington University. As a team player, an intern gains solid professional skills while providing research support, assisting in grant proposal development, helping to plan events and facilitating day-to-day work at IMHI. Internships are unpaid and available year-round.

Massachusetts General Hospital and Harvard Medical School's Summer Research Trainee Program (SRTP)

The Summer Research Trainee Program is a mandatory eight weeks in length. Students will be paired with a preceptor who will work closely with them, providing guidance and instruction in techniques necessary to address current problems in science and medicine. The student will be expected to participate in a new or ongoing project and assume increasing independence during the course of the program. Each student will be expected to prepare an oral or written presentation of his/her work at the completion of the eight-week program. Students are required

to attend the weekly seminars as well as an introductory course in clinical/physiological research that surveys the theoretical, practical and applied aspects of clinical investigation. A stipend is provided.

Migrant Health Promotion

Migrant Health Promotion relies on the talents and contributions of many dedicated interns and volunteers. If you have a special skill (graphic design, legal services, marketing, fundraising, program evaluation, etc.) or you just want to give back to the community, please contact us to discuss a satisfying volunteer experience. Migrant Health Promotion provides many internship opportunities for students of health education, social work, public health, public policy, community nursing and graphic design. Interns and volunteers commonly carry out the following projects at Migrant Health Promotion: program coordination, program development, program evaluation, web site development and media advocacy, policy, administration and management, health education materials development, development, and clerical Projects.

National Institute of Health

The NIH Undergraduate Scholarship Program offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral and social sciences health related research. This program is designed to improve access to education leading to research careers for those who have had fewer opportunities than others. This program is primarily designed to provide an incentive for exceptional scholars to pursue research careers at NIH.

The Undergraduate Scholarship Program offers:

- Strong mentoring and science enrichment components
- Up to \$20,000 per year in scholarship for educational expenses
- A ten-week, laboratory-based internship at the National Institutes of Health
- Post Graduation employment.

Stanford University-Summer Health Careers Opportunity Program

The Stanford Summer HCOP Program brings together 40 minority and disadvantaged undergraduates to Stanford from across the country who are interested in pursuing careers in medicine. The program provides a background in cellular biology, human anatomy, basic research skills, and experiences in clinical medicine. Students participate in seminars on minority health care issues, test-taking skills and MCAT preparation, and effective writing and research skills. Other workshops cover the medical school admissions process and provide help in developing portfolios, obtaining letters of recommendation, writing a compelling personal statement, interviewing, exploring financial aid options, and selecting the right medical school. HCOP provides free tuition and housing for the six-week residential program. HCOP participants live on the Stanford campus for six weeks with a staff of Stanford Residential Program Coordinators who provide a supportive academic and living environment, focusing on promoting community spirit, team building, and problem solving.

UMDNJ Robert Wood Johnson Medical School-The Biomedical Careers Program

The Biomedical Careers Program is an intensive eight-week summer program offering academic enrichment in the sciences and health care orientated activities. BCP offers three levels of coursework and seven different curricula for students at various stages of their undergraduate education. Each level includes a combination of lectures, laboratories, clinical correlations, and small group sessions. MCAT prep for medical school admissions is also part of the academic component of the Biomedical Careers Program. The non-academic component consist of career counseling and seminar series which include some of the following topics, applying to health

professional schools, interviewing for health professional schools, financial aid, cultural competency, professionalism, healthy living, stress management, legal, civic and social responsibility. A recruitment fair and health professional and student panel discussions are held each summer. BCP serves undergraduates who are economically and/or educationally disadvantaged.

University of Connecticut-Summer Research Fellowship Program

The Summer Research Fellowship Program is a ten week program designed to provide a research enrichment experience and some exposure to clinical medicine or dental medicine to undergraduate college students who are interested in a career in medicine, dental medicine or biomedical research. Applicants should have completed some college coursework in biology and chemistry (preferably through organic chemistry). A variety of research projects are available. A faculty sponsor will be identified for each student. Faculty develop and make available suitable project descriptions. The student will meet with the faculty sponsor and develop a research protocol in April or May. The student will commit approximately 30 hours per week for the project and will work with the faculty sponsor or his/her designates. Approximately 10 hours per week will be set aside for required clinical experientials and other requirements. Minority Access to Research Careers (MARC) students are encouraged to apply. A stipend will be provided. Vacation must not be scheduled during the program.

University of Michigan, School of Public Health-Summer Enrichment Program for Minority Undergraduates

The Summer Enrichment Program for Minority Undergraduates seeks to encourage minority students to identify health management as an attractive career option by familiarizing them with the field through a structured summer experience. The ultimate goal of the program is to increase minority participation in a career area in which minorities have been underrepresented. Interns work in a hospital or other health care organization in the Detroit/Ann Arbor area. Undergraduate students entering their junior or senior year of study are eligible to apply. Latino, African American, and Native American students are especially encouraged to apply. Interns receive a stipend for the eight-week program and enroll in a GRE preparation course.

The University of Pennsylvania School of Medicine

The University of Pennsylvania School of Medicine offers a pre-med enrichment program for minority students. The aim of this program is to prepare students for careers in academic medicine or other positions of leadership in

medicine. Over ten weeks, beginning in late May, student who have completed two years of undergraduate education, will be engaged in a program of research, clinical observations, classroom exercises and teaching observations, designed to stimulate their interest in academic medicine. In addition, the students will be engaged in the following: activities pertaining to the medical school application process and medical school admissions; classroom instructions and simulated testing to prepare the students for the Medical College Admissions Test (MCAT). Housing and two meals a day (Monday - Friday) will be provided. Participants will also receive a stipend.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Albert Einstein College of Medicine of Yeshiva University-Minority Student Summer Research Opportunity

MSSROP will provide participants with nine weeks of research experience in conducting biomedical research. Students participating in the program will conduct research under the direction of a faculty member at the Albert Einstein College of Medicine. Research assignments will be made based upon availability of research opportunities and according to the mutual interests of the faculty sponsors and student participants. In addition to research training, participants will attend a special seminar/lecture series. Frequent meetings with other program participants along with one or more of the faculty sponsors will be scheduled as well as weekly seminars, workshops and lectures. At the end of the 9 week period, each student will present her or his work to other students and the faculty sponsors. Each student will also be expected to write a report concerning the research work conducted and its relation to other work in progress at her or his site. College sophomores or juniors are encouraged to apply. Campus housing will be available at no cost for students not able to commute.

Cornell/Rockefeller/Sloan-Kettering Tri-Institutional MD-PhD Program

The Tri-Institutional MD-PhD Program has developed the Gateways to the Laboratory Program, an undergraduate summer research program for underrepresented minority students in their freshman and sophomore years of college. Each student receives a stipend for the ten-week period. Students are also reimbursed for travel expenses. On-campus housing is available. The Gateways to the Laboratory Program takes up to 15 students per summer. In addition to conducting independent research projects at one of our three institutions, Gateways students participate in weekly journal clubs, laboratory technique workshop, clinical skills workshop, mock MCAT exam and a Gross Anatomy lecture and tour. Gateways students scrub into numerous surgeries at the New York Presbyterian Hospital. At the end of the summer, family and friends are invited to attend the Gateways students' oral, written and poster presentations of their summer's research. In addition, students are sent to two national conferences to present their research. Each Gateways student is assigned a Big Brother/Sister who is a current MD-PhD student in our program. Students receive a generous stipend and are reimbursed for their travel expenses. Housing is available for students who live some distance from New York City.

Duke University Summer Research Opportunities Program in the Biological Sciences (SROP)

The Duke University Summer Research Opportunity Program (SROP) is a ten-week training program designed to give underrepresented minority undergraduate students hands-on experience in graduate-level biomedical research. The Program is designed for students who are seriously considering joining a Ph.D. Graduate Program following the completion of their undergraduate degree. The Program emphasizes direct laboratory experience. Students spend a large majority of their time working in the laboratory, attending lab meetings, interacting with members of other labs, and otherwise conducting themselves just as though they had entered graduate school. Each student works under the supervision of a faculty mentor and will solve real research problems in an active, modern biomedical research laboratory. In addition to laboratory research, the Program features a weekly research

seminar and social hour, a workshop about how to successfully apply to graduate school, and a closing symposium in which all the students present their results in a poster session. Students will receive a stipend, plus an on-campus room, travel assistance, and a food allowance.

The Headlands Indian Health Careers Program

Headlands Indian Health Careers is an intense academic enrichment and reinforcement program consisting of mini-block courses in calculus, chemistry, physics, biology, writing and other communication skills. Courses are designed to increase the student's background and skills so s/he is better prepared for required college-level math and science course work in pre-health programs. These courses improve study habits for college work, raise the student's chances of success in college, and increase the probability of admission to a health professional school. Topics are presented in a series of lectures and laboratories, supplemented with individual tutorials. The program also informs students of the variety of health careers available, especially the need for American Indian health professionals. Special lectures concerning medicine and the healing arts in American Indian culture will be given by prominent American Indian health personnel. The program is aimed at high school seniors and college freshmen and runs from June to July. Older students may be interested in counselor positions.

Iowa State University-Summer Research Internship Program

Iowa State University's College of Agriculture offers a Summer Research Internship Program for minority high school and undergraduate students. Students are matched with faculty mentors and have the opportunity to conduct research in areas that interest them. Students will engage in research on a faculty-led team, participate in weekly seminars, social, cultural, and educational activities, tours on and off campus, and complete a final report. High school students intern for four weeks and receive a stipend and room and board, but are responsible for their own travel to and from Iowa State University. Undergraduates intern for eight weeks and receive a stipend, room and board, and round-trip travel to and from Iowa State University.

Massachusetts General Hospital and Harvard Medical School's Summer Research Trainee Program (SRTP)

The Summer Research Trainee Program is a mandatory eight weeks in length. Students will be paired with a preceptor who will work closely with them, providing guidance and instruction in techniques necessary to address current problems in science and medicine. The student will be expected to participate in a new or ongoing project and assume increasing independence during the course of the program. Each student will be expected to prepare an oral or written presentation of his/her work at the completion of the eight-week program. Students are required to attend the weekly seminars as well as an introductory course in clinical/physiological research that surveys the theoretical, practical and applied aspects of clinical investigation. A stipend is provided.

National Aeronautics and Space Administration (NASA)-Undergraduate Student Research Program (USRP)

The National Aeronautics and Space Administration (NASA) sponsors the Undergraduate Student Research Program (USRP) to offer undergraduates across the United States mentored research experiences at NASA Centers. The program seeks applications from undergraduates enrolled full-time in accredited U.S. colleges or universities. Applicants must be rising juniors or seniors majoring in engineering, mathematics, computer science or physical/life sciences. Students will receive a stipend plus round-trip travel to the NASA host center. A location allowance will be provided for students at specific high cost NASA centers. At the completion of the research session, students must submit a paper on their research experience. Students may also be asked to discuss their research in public forums and/or participate in NASA-sponsored colloquia, workshops, and technology demonstrations.

National Institute of Health

The NIH Undergraduate Scholarship Program offers competitive scholarships to students from disadvantaged backgrounds who are committed to careers in biomedical, behavioral and social sciences health related research. This program is designed to improve access to education leading to research careers for those who have had fewer opportunities than others. This program is primarily designed to provide an incentive for exceptional scholars to pursue research careers at NIH.

The Undergraduate Scholarship Program offers:

- Strong mentoring and science enrichment components
- Up to \$20,000 per year in scholarship for educational expenses
- A ten-week, laboratory-based internship at the National Institutes of Health
- Post Graduation employment.

New York University Summer Institute

The Howard Hughes Honors Summer Institute for undergraduates affords undergraduates the opportunity to engage in cutting-edge research in genomics, bioinformatics, and computational biology at New York University.. Each selected undergraduate is paired with a faculty member whose research is of interest to the student, and through laboratory work, seminars, discussion groups, faculty lectures, and social activities, the participants learn about a variety of topics that are related to contemporary life sciences. The program culminates in a research festival, during which the students present their findings to each other, faculty, and guests. Participants will receive a stipend and a research grant for supplies. Also, room and board on the NYU campus is included.

Summer Undergraduate Internship Programs for Minority Students at Harvard University

A 9-week laboratory-based biological research program for minority undergraduates during the summer following their sophomore or junior years (June-August) up to 16 internships are awarded by a competitive process. Interns apply state-of-the art technology in their own research projects under the direction of a Harvard faculty member. Research projects focus on biological science questions that are important to the prevention of disease. Interns will write a paper and do an oral presentation.

Summer Undergraduate Research Fellowship at Boston University

SURF is a 10 week research experience that supports undergraduate students for the summer at Boston University. Participants from institutions across the country are paired with BU faculty members who will serve as their research mentors. Students receive a stipend, research supplies allowance, a travel subsidy, and housing in a BU apartment during the program. As part of the program, participants also attend a series of summer enrichment workshops whose topics range from laboratory safety to research ethics to scientific writing. At the conclusion, SURFers are asked to present a 10-15 minute talk about their research to an audience consisting of their peers, other students, faculty, staff, and invited guests.

Princeton Summer Undergraduate Research Experience (PSURE)

The Graduate School offers a nine-week summer research experience for up to 20 undergraduates who express a serious interest in pursuing a Ph.D. and following a career in college or university teaching and research. The purpose of the program is to motivate and prepare students to make competitive applications to research doctoral programs, with a view to completing the Ph.D. and then going on to teach and do original research. Undergraduate students who are minorities, who are from socio-economically disadvantaged backgrounds or who are from liberal arts colleges are especially encouraged to apply. Each student accepted for PSURE will work with a Princeton faculty member, either as a research assistant in an on-going laboratory project (sciences and engineering) or as an advisee in editing and writing research papers appropriate to the field (humanities and social sciences).

UMDNJ Robert Wood Johnson Medical School-The Biomedical Careers Program

The Biomedical Careers Program is an intensive eight-week summer program offering academic enrichment in the sciences and health care orientated activities. BCP offers three levels of coursework and seven different curricula for students at various stages of their undergraduate education. Each level includes a combination of lectures, laboratories, clinical correlations, and small group sessions. MCAT prep for medical school admissions is also part of the academic component of the Biomedical Careers Program. The non-academic component consist of career counseling and seminar series which include some of the following topics, applying to health professional schools, interviewing for health professional schools, financial aid, cultural competency, professionalism, healthy living, stress management, legal, civic and social responsibility. A recruitment fair and health professional and student panel discussions are held each summer. BCP serves undergraduates who are economically and/or educationally disadvantaged.

University of Connecticut-Summer Research Fellowship Program

The Summer Research Fellowship Program is a ten week program designed to provide a research enrichment experience and some exposure to clinical medicine or dental medicine to undergraduate college students who are interested in a career in medicine, dental medicine or biomedical research. Applicants should have completed some college coursework in biology and chemistry (preferably through organic chemistry). A variety of research projects are available. A faculty sponsor will be identified for each student. Faculty develop and make available

suitable project descriptions. The student will meet with the faculty sponsor and develop a research protocol in April or May. The student will commit approximately 30 hours per week for the project and will work with the faculty sponsor or his/her designates. Approximately 10 hours per week will be set aside for required clinical experientials and other requirements. Minority Access to Research Careers (MARC) students are encouraged to apply. A stipend will be provided. Vacation must not be scheduled during the program.

Wake Forest University School of Medicine-Cardiovascular Summer Research Program

The program, sponsored by Wake Forest University School of Medicine in Winston-Salem, North Carolina and the National Heart, Lung and Blood Pressure Institute, is an opportunity for summer research for under-represented minorities. The focus is on research training in the cardiovascular sciences with mentoring by medical school faculty. The curriculum includes "hands-on" laboratory research, a lecture series which includes presentations by faculty and guest speakers and a research symposium at which the students present their research findings. Undergraduate or master's students with an interest in a biomedical research career are encouraged to apply.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Social Service and Not-for-Profit

Academy for Educational Development (AED)

The internship program at the Academy for Educational Development was established to enhance AED's ability to attract students of academic excellence as potential full-time employees and aid in the development of a multicultural workforce by focusing on attracting candidates from historically diverse institutions of higher learning. Undergraduate and graduate student interns are given the opportunity to acquire an insight into the types of programming that exists within an organization focused on global education and communication technology. They also gain substantive work experience and develop a realistic understanding of the education and experience required at different levels of responsibility within AED and similar organizations. Interns are involved in a variety of activities such as research and writing, coordination of itineraries and meeting schedules for consultants, visitors, and students; and proposal preparation and production. AED offers paid internships, which provide the student with a salary commensurate with experience and academic history, and non-paid internships, which provide the student with academic course credit or experience.

Advocates for Youth-General Internship

Advocates for Youth is the only national organization dedicated exclusively to the advancement of adolescent sexual and reproductive health. Advocates for Youth's program and policy departments promote the health of adolescents worldwide with a focus on the prevention of unintended teenage pregnancy and the spread of sexually transmitted diseases (STDs), including HIV/AIDS, through access to health services and information. Advocates for Youth values the opportunity for interns to be a part of its work. The goal of Advocates' internship program is

to provide undergraduate/graduate students with a successful and meaningful opportunity to learn about Advocates' mission and programs, contribute to the work of the organization during a limited time period, and gain meaningful professional experience. Advocates offers a limited number of paid internships. Compensation will be based on the District of Columbia's minimum wage for each hour worked.

Coro Kansas City-Summer Internship in Public Affairs

The Summer Internship in Public Affairs is a full-time, ten-week summer program, whose purpose is to develop future community leaders through exposure to community issues, skill development, civic leaders and organizations. The program is demanding, full-time, and requires an interest in public affairs. Each intern is assigned a brief, individual internship in business, government, labor, media, or non-profit organizations. Preferential consideration is given to applicants from the Greater Kansas City area or to those who intend to include Kansas City in their future plans. Both undergraduate and graduate students are eligible to apply. Twelve interns are selected every summer. Interns receive a stipend.

Human Rights Watch

Human Rights Watch investigates and seeks to promote human rights worldwide. Founded in 1978, Human Rights Watch has come to be known for its impartial and reliable human rights reporting, its innovative and high-profile advocacy campaigns, and its success in affecting the human rights-related policies of the U.S. and other influential governments. Human Rights Watch offers internships for both undergraduate and graduate students in our New York, London, Los Angeles, and Washington offices in most of its Regional and Thematic divisions, its Special Initiative programs, and its Organizational Support departments. Undergraduate internships are primarily administrative and clerical in nature, but other projects can be assigned as they arise and match the student's interests and abilities, including research, drafting documents, translating, and helping researchers prepare for missions. Internships are unpaid, except for the Everett Public Service Internship.

Mexican American Legislative Foundation, Inc.-Moreno/Rangel Legislative Leadership Program

The Moreno/Rangel Legislative Leadership Program provides a unique opportunity for Latino/a undergraduate and graduate students from across Texas to gain first-hand governmental experience working in the Texas House of Representatives during legislative session. Named after the longest serving Hispanic member of the Texas House of Representatives, Paul C. Moreno (El Paso), and the late Irma Rangel (Kingsville), the first Mexican American woman to serve in the Texas Legislature, the program places students with members of the Texas House of Representatives. Students serve as full-time policy Interns (undergraduates) or Fellows (graduate students) and work alongside experienced legislative staff. They participate in weekly seminars with the opportunity to interact with other interns and fellows, elected officials, community and policy leaders, and state agency representatives. The program also emphasizes communications training and skill building for more effective participation in the legislative process.

Minority Access-Internship Program

The Minority Access Internship Program is designed to allow talented undergraduate and graduate students experience the diversity and scope of career opportunities available in the federal government and other participating entities. The program provides students with the opportunity to merge academic theory with practical application in the workplace. Minority Access interns receive pre-employment training, expert counseling on career choices, financial management and professional development, and recognition for fulfilling the requirements of the program. The Minority Access Internship Program staff is available at all times to lend assistance to the interns. Full-time internships are available in the summer, and full-time and part-time internships are available in the spring and fall semesters. All internships are paid positions and most include round-trip travel.

National Academy of Social Insurance (NASI)-Nathan J. Stark Internship for Non-profit Development

The Nathan J. Stark Internship for Non-Profit Development will provide two students with the opportunity to learn about non-profit boards and fundraising. Students will be based at the National Academy of Social Insurance or a similar not-for-profit organization such as the National Health Policy Forum or the Association for Academic Health Centers. Each summer, two students or individuals interested in a career in the non-profit sector will be awarded the internship based on national recruitment and a competitive selection process. The students will come to Washington, DC, for thirteen weeks between May and August, depending on their schedule. The internship includes an honorarium and the opportunity to participate in a series of seminars and projects.

National Organization for Women (NOW)

NOW, the largest feminist organization in the United States was founded in 1966 to end the injustice and inequality women face daily. NOW offers full-time and part-time unpaid internships throughout the year for undergraduate and graduate students. Prospective interns should be hard working, enthusiastic, and flexible individuals who possess or seek a working knowledge of women's issues and feminist organizing. Interns should also be committed to continuing the struggle for equality and justice once they leave the internship program and return to their campuses and communities. As interns with the National NOW Action Center, students will be in the front lines of the women's rights movement.

National Partnership for Women and Families

The National Partnership for Women and Families is a non-profit, non-partisan organization that uses public education and advocacy to promote fairness in the workplace, quality health care, and policies that help women and men meet the dual demands of work and family. The National Partnership invites bright, energetic women and men who are passionate about our issues to apply for internships. This is an opportunity to learn from seasoned professionals, to work inside the advocacy/public policy community, and to advance issues that have a direct impact on women and families nationwide. The National Partnership for Women and Families seeks interns for various positions. Internships are unpaid and are offered throughout the year.

Organization of Chinese Americans

The OCA Internship Program also exposes interns to other aspects of D.C. Last year, intern visits included Congressional offices, where interns met with Representatives, APA staffers, and members of the Congressional APA Caucus. They also met with members of the Department of Justice and discussed issues concerning civil rights and voting rights. Interns will have a lot of hands on experience at the offices in which they are placed. The OCA internships are a great way for student leaders to learn about OCA, current issues facing Asian Pacific Americans, and while experiencing the day to day activities of internet company.

Political Research Associates (PRA)

Political Research Associates is an independent non-profit center that serves as a national resource on the U.S. political right. PRA collects and analyzes information on anti-democratic, authoritarian, and racist movements and trends, and publishes material that explain the ideologies, strategies, and funding of these movements and the links to each other. PRA offers internships for summer and fall semesters. Intern responsibilities include researching and writing for PRA publications, proof-reading and fact-checking, updating and maintaining PRA's web site, and working with the Development Director on various components of the outreach campaign to increase PRA's visibility. A stipend may be available for summer interns.

Student Action With Farmworkers (SAF)-Into the Fields Internship

Into the Fields is a ten-week internship and leadership development program that creates opportunities for college students to work for fairness in the agricultural industries. Through the Into the Fields Program, college students from diverse backgrounds work full-time with farmworkers to promote greater respect and justice for the people who supply food for our tables. Each summer, 30 students work in migrant education programs, rural health

clinics, legal services, immigrant assistance organizations, policy and research groups, and with community and labor organizing projects in North and South Carolina. Interns provide health education to farmworkers, develop leadership programs for migrant teens, promote workplace safety and pesticide education, teach English as a second language, educate farmworkers about their legal rights, and organize workers into labor unions. Interns receive on-going training, furnished housing, a stipend, and a post-service scholarship.

Southwest Voter Registration Education Project (SVREP)

SVREP, a national non-profit non-partisan organization dedicated to the empowerment of the Latino and other ethnic communities through voter registration and mobilization efforts, offers several unpaid summer internships to high school, undergraduate and graduate students. SVREP interns can work on a multitude of projects ranging from general office administration, field organizing and administration, leadership training, public relations/media, and development/special event planning. The ideal intern will be able to multi-task, prioritize among assignments, meet deadlines, work with little or no supervision, and be available 10-20 hours a week. Internships are available in San Antonio, Los Angeles, and Miami.

The Washington Center for Internships and Academic Seminars

The Washington Center for Internships and Academic Seminars (TWC) is a vital nonprofit organization serving hundreds of colleges and universities in the U.S. and other countries by providing selected students challenging opportunities to work and learn in Washington, D.C. The largest such program, TWC has over 33,000 alumni, leaders in numerous professions and nations around the world. There are three basic components to every TWC intern's experience: the internship, an academic course and the Washington Forum. When students are accepted by The Washington Center, they are assigned, according to their interests, to a program - either the Main Program, one of approximately a dozen special, thematically-organized ones, or one of two postgraduate programs. Each program has one or more professional program advisors who counsel, place, supervise and help evaluate students, as well as organize activities for them during the day or half-day when students are not at their internships. Program costs range from \$3,000 to \$5,000.

Women's Research and Education Institute (WREI)

The Women's Research and Education Institute (WREI) is a non-profit and non-partisan organization that provides information and analyses on issues of concern to women, policy makers, and others interested in women's issues. WREI offers unpaid internships to current undergraduate students who have completed at least one year of college. Interns assist WREI staff on various projects. Depending on the time of the year and what projects are on the "front burner," interns may help organize Capitol Hill briefings and conferences on key issues, prepare fact sheets on various topics, assist with preparations for fundraising events, and represent WREI at Washington-area seminars and other events.
