

Keystone
Rehab Products

The Best Electrodes

in the World...

And we can prove it!

Keystone Rehab Products premium electrodes are designed to be the best electrodes in the world. Their superior construction creates the strongest electrodes available and prevents damage when you lift by the lead wire.

- Superior Electrical Performance
- Rugged Construction
- Excellent Moisture Retention
- High Levels of Re-Use

Quatrode™

The only electrodes specifically designed for interferential current. Quatrodes integrate 4 separate electrodes into a single patch.

- Optimizes Interferential Treatments
- Allows Effective Targeting of Tissue
- TENS / NMES Compatible
- Easy Application
