Our Event Services and Activities

(charity events only)

GroupTogether Ltd has been supporting charity events for the past decade and will continue to do so in 2020. We have added some new activities this year and joined forces with GJ Bouncy Castle Hire to have more flexibility with what we can bring to your charity event. All our team are DBS checked and have the relevant training and skills to ensure they can instruct the activities you wish to have at your event.

How we work with charity events?

We do not charge charities to have our activities at the event. We provide all our documentation up front, turn up on the day, set up and donate 20% of our profits to the charity at the end of the event. This can either be done by BACS or by providing cash to an agreed person at the end of the event. Alternatively, if you wish the guests to your event to go on our activities for free, we charge a reduced amount for the hire of our equipment to be at your event and have a donation bucket at the activities to help raise money for the charity. We publicise your charity event on all our social media platforms and in local schools (if we are currently working within one in the local area).

Our Services

First Aid/Medical Event Cover

We offer everything from a first aider to a paramedic to meet the requirements of your event. Our prices start from £10ph depending and go up depending on the requirements of the event. We will work with you to come up with a first aid plan and assessment to ensure the event is meeting standards and providing the correct level of cover to keep guests safe. Our team will set up a first aid point, as well as having a patrolling member of the team to have a visible presence always.
