Education for children of Immanuel Lutheran Church, Mision Emanuel and the surrounding communities.

Our School is open to those who desire Christian training in the Christian faith and service and desire to meet or exceed the entrance requirements for the next grade level.

In its ministry, Immanuel Lutheran School endeavors to develop each person into a mature, wholesome personality capable to meet their responsibilities to God, to others, to themselves and to their country.

Through the school years the children attending Immanuel Lutheran School will be given instruction based upon a curriculum which holds the spiritual growth of the child to be of great importance while maintain the highest possible academic standards in all subjects.

Philosophy

1. God's Word, the Bible, is without error. It teaches us that Jesus Christ paid for all our sins and by faith made us children of God.
2. Christian education is vital to the mission Jesus has given to His Church which is stated in the words of the great Commission *(Matthew 28:19-20)*
3. As Christ is the center of the Christian life, so, He must be the center of our education.
4. As an extension of the ministry of the congregation and the Christian home, Immanuel Lutheran School helps fulfill five functions:
 - a. Education.
 - b. Worship.
 - c. Reaching out to others with the love and forgiveness of Jesus.
 - d. Sharing Christian faith experiences and encouraging others in their life in Christ; in service and in caring for the spiritual welfare of others.
 - e. Because of Christ's love for us we strive to actively care for the physical needs of those who are truly needy.
5. Immanuel Lutheran school will teach children the Christian faith and encourage them to live that faith in the classroom, in the home and wherever they go.
6. Our Christian educators are committed to provide a complete education for God's children by meeting their spiritual, social, physical and emotional needs. The teachers do this not only by what they say but most of all by their example off Christian living in and outside the classroom.
7. Children learn their proper relationship to God and their fellow man by sharing and living God's Word in love, patience and forgiveness. The teachers and students work together to create a classroom atmosphere of Christian love, forgiveness, acceptance and joy.
8. Immanuel Lutheran School is distinctive in that:
 - a. The word of God is taught in its truth and purity.
 - b. The Holy Spirit works through God's Word to change hearts that we may live God pleasing lives because our sins are totally and unconditionally forgiven.
 - c. Students learn from the example of Christian educators, parents and each others.
 - d. Children and teachers view each other as forgiven sinners.

- e. children learn that each child is an individual with needs and they are to try to meet these needs in Christian love.
- 9. Children learn that God (Father, Son, and Holy Spirit) originally created man in His own image - holy and capable of living in perfect harmony with God. But by his own will man disobeyed God and lost his relationship which affected his entire physical, mental, emotional, social and spiritual well being.
- 10. Immanuel Lutheran School will strive to properly apply the Law that shows us our sin and the Gospel that shows us the total forgiveness in Jesus Christ. By recognizing that the child is both sinner and saint, the Law is used to show the child his sins. The Gospel is used to apply forgiveness and faith in the Lord Jesus to the child as it assures him/her of total forgiveness and nurtures the child's spiritual growth.
- 11. Immanuel Lutheran School honors the roles and relationships expected in the family, community, school and church in the educational process's.

Objectives

Immanuel Lutheran School seeks to fulfill its mission of providing the highest quality Christian education striving:

- 1. To implant a rich love for God in the children as they face life and eternity.

Other teachers are advisory members. The Board determines school policies, informs the voters of the needs of the school, safeguards the health and safety of the children, and brings the school to the favorable attention of the congregation members and the general public. The board members keep themselves informed on matters of policy and practice by maintaining close contact with school and through reports from the Director and/or Principal. Curriculum and Instruction - Pre-K and Kindergarten

The curriculum at Immanuel is Bible centered and supportive of our objectives of a Christian education.

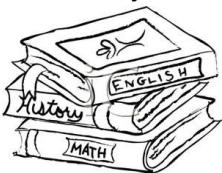

The Pre-K and Kindergarten are taught in learning centers to enhance their learning. They are taught the traditional curriculum.

The Pre-K curriculum, learning centers are Jesus time, blocks, library, dramatic play, math, art, discovery and computer lab which guides each child to begin and improve skills in math and language at the students' own pace. Math and language skills follow the Saxon guide for Pre-K.

The Kindergarten curriculum, in addition to the above, also follows Saxon Phonics for reading, spelling, grammar, and Saxon math. Immanuel Lutheran Pre-K and Kinder are an integral part of our school. The curriculum reflects Christ's love for little children and provides for their spiritual, physical, mental, social, emotional, and aesthetic development. It provides varied experiences to promote present and future growth in desirable knowledge, attitudes, self-discipline, and good conduct. The school works closely with the home to ease the child's adjustment from a life dependent on a few adults to that of a larger social group.

Curriculum and Instruction for Grades 1st—5th

The students in Immanuel Lutheran School learn to **thank, praise, honor, glorify, and serve God** at home and in school.

The aim is served when the home and the curriculum work together to:

1. Instruct the child for an eternal relationship with God.
2. Enable the student to acquire basic skills, knowledge, and attitudes in proportion to the student's capacities and needs.
3. Help the child use these skills, knowledge, and attitudes in life long relationships with God, his/her fellow man and nature.

We believe that a child should not be held back from learning and moving forward in her/his education or be pressured to go beyond her/his ability or level of maturity.

We believe the curriculum includes all Christian learning activities under the auspices of our school. The responsibility of the home is to teach acceptable moral standards that form the child's character and encourage Christian learning activities.

Religion

Christianity is a way of life and is lived with the children throughout the day in all their school activities. As a formal course we learn about living the Christian life, Bible stories, memory verses, the importance of prayer and worship at school, in the home, and in their church.

• Language Arts Harcourt

The child will be able to interpret written and spoken language and will increase her/his ability to use language in relating to others, the child will grow in word recognition, correct spelling, grammar, neat handwriting, and oral and written expression. The child will grow also in appreciation of the Bible, contemporary and classic literature, and be able to choose reading material wisely.

The language curriculum includes reading, using phonics (the English language is 86% phonics based), literature, grammar, composition, spelling, and handwriting (first learning to print and then cursive writing) from Kinder through all grades.

• Mathematics Saxon

The mathematics curriculum will help each child appreciate the meaning of the values of numbers and how math is to be used in serving God and man. Math will establish skills in the practical processes of math and in problem solving. It will help the understanding of measure and the principles underlying common business transactions.

It will also help the child gain skills in understanding mathematical data found in reading and in making correct judgments based on such data as well as also helping the child to become a better citizen. These grades will be building on the Saxon math used in Pre-K and Kindergarten.

• Social Studies Harcourt

The Scriptures command us to be good stewards of the Earth (Genesis 1:28) and to "love your neighbor" (Matthew 22:39) are especially applicable to social studies.

The curriculum includes Biblical, church, and secular history, geography, and current events.

- **Science Harcourt**

Science at Immanuel Lutheran School begins, continues, and ends with God. With the psalmist we say “the heavens declare the glory of God, and the skies proclaim the work of His hands.” (Psalm 19:1)

The curriculum includes Biblical, church, and secular history, geography, and current events.

- **Fine Arts**

The fine arts curriculum uses the resources of parents and friends of the school to supply the child with a means to glorify God through separate instruction given in art, crafts, music, and drama. Each of these areas is correlated with other phases of the school program.

- **Assignments**

Students are required to complete all assignments. Assignments will vary from teacher to teacher and from subject to subject. While much will be completed at school, some assignments by their very nature require that they will be completed at home. We request the parent’s cooperation when it is necessary that students bring assignments home for completion.

ENRICHMENT CURRICULUM

The curriculum of Immanuel Lutheran School includes the school’s total program for pupils. Elements of curriculum here are classified as “Enrichment”. They provide the child with learning experiences that usually cannot be offered effectively within the classroom limits. These activities include pupil participation in:

DISCIPLINE POLICY

Immanuel Lutheran School Board of Education supports the teachers in their effort to maintain orderly conduct in all classes and activities.

Immanuel Lutheran School is privileged to offer this program of Christian education to the

community. It is also compelled to deny the privilege of enrollment and continued attendance if severe or chronic discipline problems occur. The general disciplinary procedures provide for teachers to penalize disruptions and distractions that interfere with teaching and learning. Continued attendance will be denied by suspension or expulsion if disciplinary problems of students cannot be changed to comply with the expectations of the teacher and the school.

The behaviors and/or learning of the enrolled student are such that they do not impede (or interfere) with their own learning or the learning of the students in the classroom (school).

STEPS for ADMINISTRATION of DISCIPLINE POLICY

1. The faculty will handle matters of everyday classroom and playground management with the child or children involved. Discipline methods might include, but are not limited to temporary removal from the classroom or activity, or denial of privileges such as not participating in recess.
2. If the child's negative behavior persists, the matter will be discussed with the parents.
3. The Director will determine disciplinary actions that are appropriate if a student's misbehavior continues. Discipline actions may include, but are not limited to, a conference with the child, parents, and teacher, at home suspension, or expulsion.
4. Cases of severe misbehavior are brought directly to the Director or School Board.
5. The decision by the Director or the School Board of suspension or expulsion can be appealed to the Board of Education by written request.
6. The teachers are to report monthly to the Director any behavior problems with a specific student who continually disrupts the classroom. Basic information about these students and the extent of their disruptions will be shared with the Board of Education monthly for possible Board action.

It is our philosophy that the pupil's body is the temple of God. Through a well-directed program of physical education, the pupil will learn an awareness of this fact and consequently can develop to the fullest as an individual member of her/his family, school, community, and church. In order to carry out the learning process, the pupils must follow certain rules and disciplines. The pupils are requested to wear proper clothing and tennis shoes. We have the children's safety at heart.

Field Trips

Field trips are an important part of the curriculum at Immanuel Lutheran School. They allow students to experience the learning of various aspects of the real world and to see things they have read or heard about. The teacher decides how many field trips will be taken during the year. The field trip is under the supervision of the teacher, who, out of respect for the parents is responsible to see that the children are returned to school at the scheduled time.

- Nuisance items will be held by the teacher and returned to the parents at the end of the school day.

Party Invitations

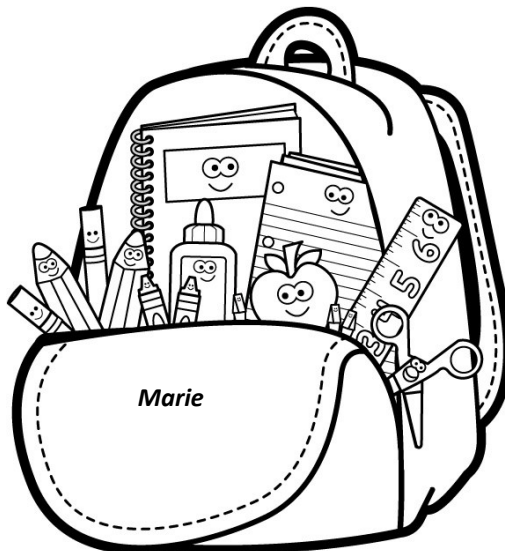

- To prevent hurt feelings and promote good relationships among the children, invitations to parties should not be distributed unless all the girls, all the boys, or the **ENTIRE** class is invited. The invitations must be given to the teacher to be distributed at a convenient time.
- If selected children are to be invited, do this privately or through the mail—**NOT** on school grounds.
- If party treats are to be brought to school, please notify the teacher (2) two days prior to the event so the teacher can schedule a time for the party.

Because of the similarity of clothing and other personal belongings, please mark or print your child's name on these articles. All lost and found items will be taken to the church office. Unclaimed articles will be given to charity.

Change of Address or Telephone Number

An accurate, up-to-date list of all home information is necessary. Parents must notify the school/church office of changes in address, telephone numbers, and persons allowed to pick up your child. It may seem time consuming or unnecessary, but it is for your child's welfare.

Church and Sunday School Attendance

Consistent with the principles for which Immanuel Lutheran Church, Misión Emanuel Luterana have been established, all pupils are encouraged to attend their own church and Sunday School each Sunday.

This is expected inasmuch as church and Sunday School are the normal extension of the school program in the lives of children.

In the event that a child is not enrolled in a Sunday School or her/his parents do not attend or hold membership in a church, we invite these and others to attend:
