- ↗ Improve acne scars
- ↗ Reduce hyperpigmentation

Acne scars

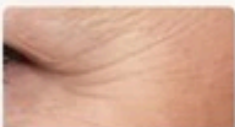

Large pores

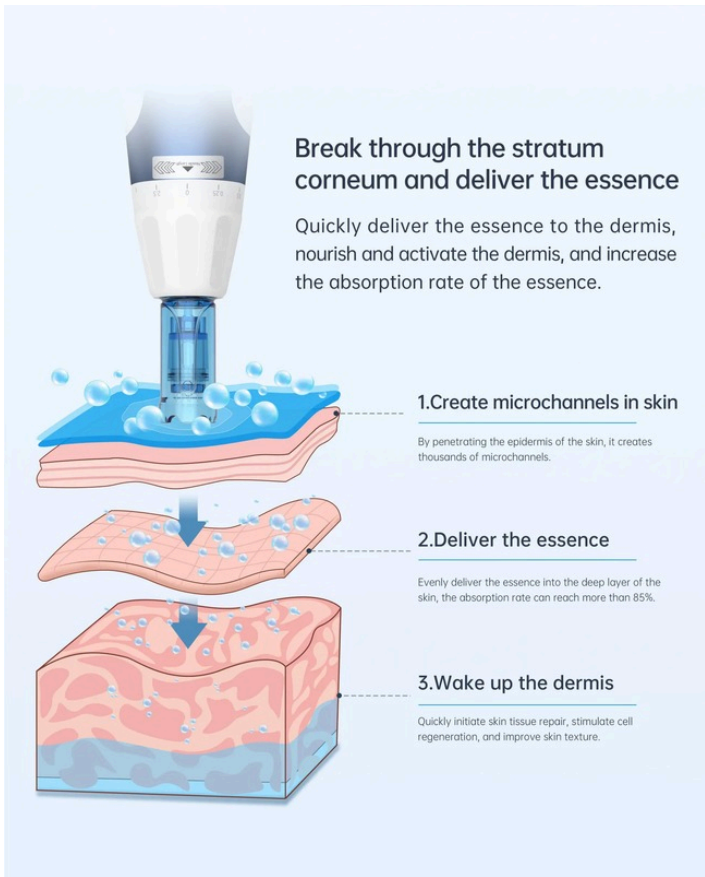

Stretch marks

Shallow scars

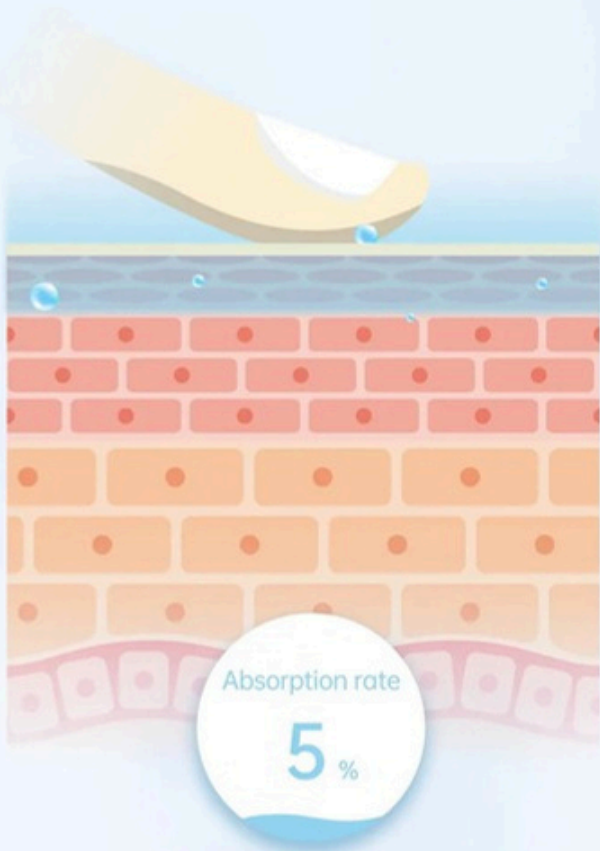

Fine lines

Adjustable needle depth for precise treatments

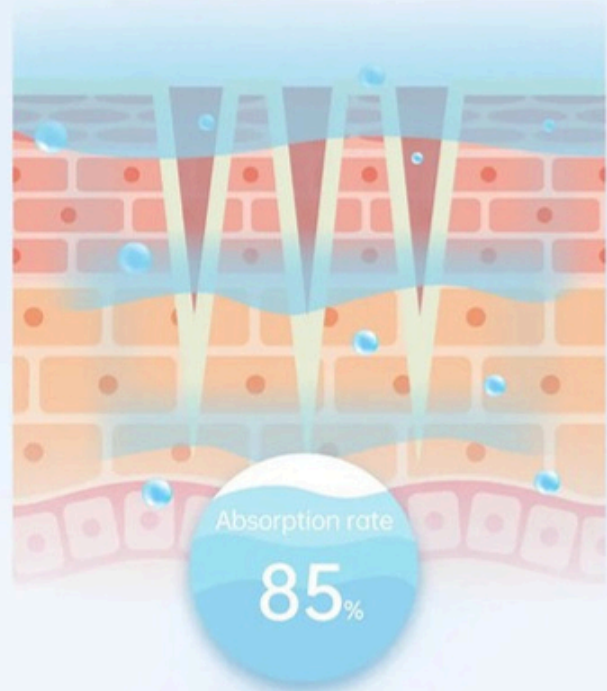

- Consistent, controlled micro-channels
- Minimal trauma, faster recovery
- Suitable for face, scalp & body
- Reliable performance for clinical use

Deliver the essence directly to the mesoderm of the skin, while stimulating cell regeneration, which is conducive to the complete absorption of the essence by the skin.

Daily skin care

The tough stratum corneum blocks the delivery of more than 95% of the essence, and the skin cannot absorb it effectively.

Microneedling Skin Care

Microneedles can penetrate the stratum corneum of the skin, allowing more than 85% of the nutrients to be delivered effectively.

Skin Care

A11 has low battery warning to help users know the remaining battery power intuitively. It can better control the working hours.

Low battery warning

Induction Base Pause, Place and Display

 The number of speed flashes slowly when the battery capacity is 10% left.

 The pen turns off automatically after the number of speed flashes quickly for 1 minute.

 The pen shows "L" when restarting after the low battery automatic shutdown.

3L Connector

The connection of cartridge is 3 locks design. So the cartridge is locked easily and firmly, making the procedure more stable and efficient.

Pause Button & Wise Touch Screen

Press the Pause button and the handpiece will pause while maintaining the current speed level. This helps save power. The operator can also adjust the posture and operation during the pause, increasing the safety of the skin care process.

Recognition for medical institutions & beauty salons

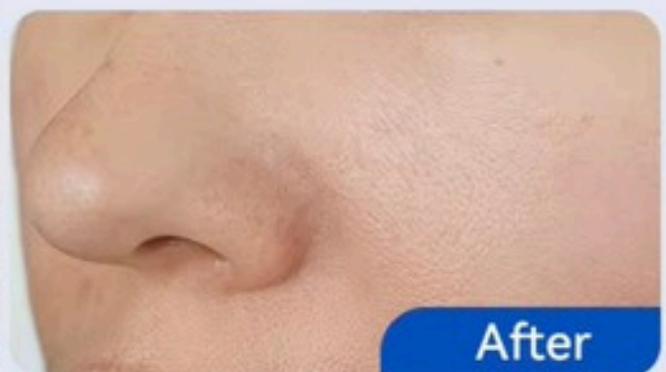

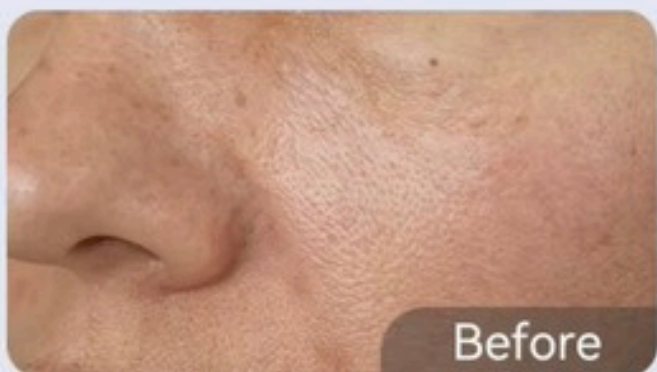

Acne scars and pits

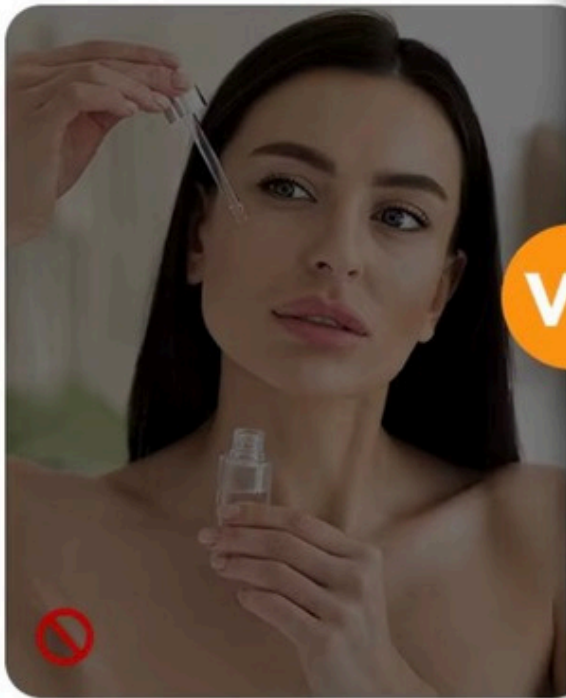

Stretch Marks

Pore

Microneedling Skincare for Enhanced Absorption

VS

Using skincare products alone:

Skincare products are difficult to penetrate deep into the skin, and the skincare effect is average

Microneedle-Assisted Delivery:

Rapidly opens skin absorption pathways, allowing skincare products to penetrate deeper into the skin, targeting improvement from the basal layer for enhanced efficacy.

Targeted Skincare Pairings for Multi-Skin Concerns

Hyaluronic Acid Aqua Injection

Hydrating infusion – moisturizes skin and reduces fine lines.

Freeze-Dried Powder

Repairs acne scars & pitted scars

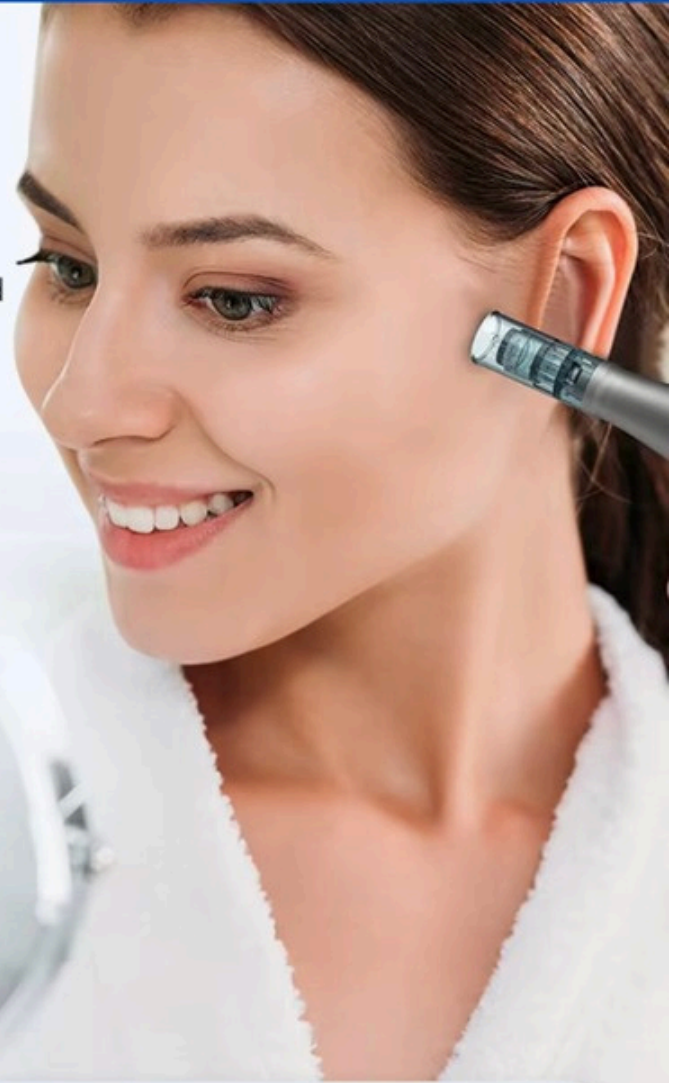

Spot lightening essence

Brightens skin tone and reduces pigmentation

Moisturizing products

Shrink pores, hydrate and moisturize
