

THE COMMONWEALTH OF DRACUL
• SAVARSIN PLACE, ROYAL HOUSE OF JIPA •

Released January 28, 2024

The Commonwealth of Dracul Monarchy, in unison with the Federal Government, staunchly supports Texas Governor Greg Abbott, the Department of Public Safety (DPS), and the State Guard. We unyieldingly endorse their exercise of rightful authority in placing barriers to prevent illegal immigration. This decision is non-negotiable, safeguarding the interests and resources designated for our citizens.

The primary issue at hand is the relentless influx of unvetted illegal immigrants, exploiting our resources meant for the welfare of our Commonwealth citizens and the State of Texas. The overwhelming numbers pose a significant threat to the stability and prosperity of the Commonwealth. It is not only our duty but our uncompromising commitment to prioritize the well-being and security of our citizens and the State of Texas above all else.

Moreover, it is imperative to recognize the profound importance of maintaining the borders of a nation. Borders are not mere lines on a map; they are the bedrock of a sovereign nation, defining its identity, culture, and principles. They stand as an inviolable barrier, ensuring the safety and prosperity of the citizens within. The maintenance of secure borders is not negotiable; it is an absolute necessity to preserve the social fabric and economic stability of our nation.

Furthermore, their refusal to enforce the laws on the books exacerbates the challenges faced by our region in managing the border situation effectively. This is not a matter of politics; it is a clear dereliction of duty on the part of the Federal Government. Let it be known unequivocally that the Federal Government has no right to seize a state's property, which in this case is Shelby Park. We will not countenance any encroachment upon the sovereign territory of our neighboring state. Such actions undermine the principles of state sovereignty and federalism, and we will not tolerate any violation of our sovereign borders.

Rest assured, the Commonwealth of Dracul is vigilantly monitoring this situation. We are not merely committed, but resolute in taking decisive action if the circumstances demand it. If the situation escalates, we will not hesitate to mobilize volunteers within our Commonwealth as a militia to support the Texas Government in its unwavering efforts to maintain law and order.

Our commitment to the protection of our Commonwealth citizens and the integrity of our borders, as well as the State of Texas, remains unshakable. We demand that all citizens stay informed and supportive during these challenging times. Together, we shall overcome these challenges and uphold the indomitable principles that define the Commonwealth of Dracul.

May our unity and resilience prevail.
