FOR IMMEDIATE RELEASE

Girls Save The World™ and North Texas Rotary District 5810 Collaborate to Empower the Next Generation of Leaders at 2027 Global Youth Summit

Rotary's commitment to Service Above Self meets the Campus of Purpose™ — connecting youth leadership, innovation, and service to real-world impact.

IRVING, TEXAS — October 2026 — Girls Save The World™ (GSTW) announces its collaboration with Rotary District 5810 in North Texas for the Global Youth Summit, April 22–24, 2027, at Astoria Event Venue in Irving, Texas.

The three-day Summit will bring together students, educators, Rotarians, industry leaders, and change makers for immersive experiences in leadership, innovation, life-readiness, and community service. At the heart of the experience is Campus of Purpose-OS™, the digital ecosystem of Girls Save The World, designed to help students move from passion → purpose → impact.

The collaboration creates opportunities to connect Rotary's youth and young adult leadership programs, Interact and Rotaract, with hands-on Innovation Hubs, mentorship, leadership conversations, and service-driven projects. Students will explore real-world challenges, develop solutions, and discover how their leadership can strengthen communities locally and globally.

"As a Rotarian, I've experienced firsthand what Service Above Self means when we put it into action," said Chonnie Richey, Founder and CEO of Girls Save The World™. "Through the Campus of Purpose, we're creating a pathway for young people to connect leadership with service, innovation with impact, and their passions with the needs of their communities. Our collaboration with Rotary District 5810 brings that vision to life."

The Summit will also feature Rotary innovation and sustainability projects, interactive Innovation Hubs, student showcases, and LeadHERship™ Public Policy Conversations,

One Earth. One Rotary. One Generation of Change makers.
"Rotary has always believed in developing leaders through service," said Mike Callahan, District Governor of Rotary District 5810. "This collaboration provides an exciting opportunity to engage Interactors, Rotaractors, and Rotarians in meaningful experiences that connect leadership, innovation, and community impact. We're excited about the possibilities for the next generation."

An Invitation to Rotary Clubs
Rotary clubs throughout North Texas are invited to explore opportunities to participate through student sponsorships, mentorship, volunteer service, Innovation Hub partnerships, and engagement with Interact and Rotaract members.

About Rotary International

Rotary International is a global network of more than 1.2 million members dedicated to creating lasting change in communities and around the world. Guided by its commitment to Service Above Self, Rotary brings together people of action to advance peace, fight disease, support education, protect the environment, and strengthen communities.

Through youth programs such as Interact and Rotaract, Rotary empowers young people to develop leadership skills, build meaningful connections, and make a difference through service.

Rotary District 5810, serving North Texas, connects local Rotary clubs and members committed to leadership, service, and creating opportunities for the next generation.

About Girls Save The World™

Girls Save The World™ (GSTW) is a nonprofit organization equipping and empowering middle and high school students with the leadership, innovation, and life-readiness skills to connect their passions to purpose and turn purpose into impact.

Through its REAL D.E.A.L.™ framework — Discover. Empower. Amplify. Lead. — GSTW delivers immersive learning experiences, mentorship, and real-world opportunities that encourage students to think critically, lead confidently, and build solutions to challenges that matter.

At the center of this mission is Campus of Purpose-OS™, GSTW's digital ecosystem connecting students, educators, mentors, and industry partners through leadership development, hands-on innovation, and purpose-driven experiences.

The 2027 Global Youth Summit, April 22–24 in Irving, Texas, brings this ecosystem to life, creating a space where the next generation doesn't just imagine the future, they help build it.

Building for Good. Building What's Next. Building a Future for Everyone.
