## *Message from the President...*

It's HOT! Crazy HOT! Of course, we Texas residents know to expect July to be pretty toasty. (Gotta love air conditioning!!)

We are mere days from celebrating our great nation's independence. No matter what your personal political views are, I hope you're looking forward to this year's festivities. I'm a total sucker for fireworks! I'll find a big fireworks show somewhere—hopefully one that has the musical sound track to go with it—and wave a flag, clap & cheer as each boom is bigger than the last. The technology required for the really big shows is very impressive. Today's displays are much more amazing to me than the ones I enjoyed as a child.

I also want to take this opportunity to thank our military personnel, here & abroad, for keeping our nation safe. The sacrifices of these brave men & women—and the families who love them—can never truly be repaid. If you have family members who served or are serving, please thank them for me!

Don't forget 'First Friday Happy Hour' on Friday! We're meeting at Button's Restaurant located at I-30 & Hulen Street, near the Central Market. Expect some great fun, good food, cold drinks (adult or not) and some wonderful conversation. This monthly get together is a fantastic way to get better acquainted with our members. Bring a friend or two. I look forward to this event each month & hope you do too!

Later in the month, we're having 'Christmas in July'—a membership event that we hope will bring several new prospective members into our group. I've heard that the activities Toni Allison has planned for this party should make it a 'must attend' event for everyone. Expect to laugh hard and a LOT!

July also means this year is half over! (Yeesh!!) I don't know about you but I feel very behind schedule. (This letter was a whole week late! Thank you for your patience, Olga!) As we move forward in the coming weeks, if you find yourself with some free time, I know a couple of committee chairpersons who would appreciate your assistance! Please let us know if you're able & willing to assist us. We will put you to work!

Stay cool, ladies!

## If You Think You've Been Hacked

1) **Look for unusual computer activity.** While the cause of computer problems can range from temperature to a corrupted hard drive, the following may indicate that your computer was hacked:  
Your computer's password no longer works  
Your computer's settings have changed drastically without your input  
File contents have been changed

2) **Look for other standard hacker malware.** Here are some other things that might occur when hacked:  
Browser toolbars which you didn't add appear  
Random and frequent pop-ups appear on your computer, even when not using a browser  
System or browser settings have been reset to their defaults, or they're using settings that you didn't implement

3) **Check for intruders on your Wi-Fi network.** Both Windows and Mac computers come with built-in ways to determine whether or not your Wi-Fi network is entertaining extra guests:

### Windows

Open **Start**

Type in *view network computers and devices*

Click **View network computers and devices**

Look for unusual items (the "ROUTER" item is your Wi-Fi router).

### Mac

Open **Finder** or click the desktop.

Click **Go**

Click **Network**

Look for unusual items.

4) **Stop the hacking.** If you determine that your computer or smartphone has been hacked, there are a few things that you can do to prevent the hacking from continuing and minimize the fallout from the hacking itself:

Disconnect from the Internet immediately.

Turn off your Internet by unplugging the router and/or the modem from the wall.

Restart your computer into Safe Mode (skip this step on mobile):

### Windows

### Mac

Remove any recently installed programs.

Restart your computer.

5) **Prevent future hacking.** You can revoke a hacker's access to future data by doing the following:

Run an antivirus check and reinstall your operating system if necessary.

Clear your browser's cache and cookies.

Change all of your account passwords.

Another thought: Power off the modem and let it sit for 20 minutes if it is At&T or 2 hours for cable. This should give you a new IP address so the hacker cannot know where to find your computer again to re-hack it. It will put you back into the anonymous category.

# Spotlight on June Presenters

## Theme for June—Volunteering

*Volunteering is the ultimate exercise in democracy. You vote in elections once a year, but when you volunteer, you vote every day about the kind of community you want to live in.*

~Author Unknown

Alice Adams and Janice Allen – the Inspired Women – convened our meetings this month using the theme of “Volunteering.” They rounded up a stellar group of presenters who talked about the organizations they work for and encouraged us to consider joining their efforts and spread the word to others who may be willing to sign on as volunteers. If you were there you may remember these presenters:

**June 1** – Anna Skaggs, MS, LPC-Intern with the Paluxy River Children’s Advocacy Center. Anna talked about her journey into working as a counselor with this organization who helps children and families impacted by abuse. For more information on this organization or the work Anna does contact [www.paluxyrivercac.org](http://www.paluxyrivercac.org); [annaskaggs@paluxyrivercac.org](mailto:annaskaggs@paluxyrivercac.org) or call 817-573-0293.

**June 15** – Pam Manley with ABC CPR. This lady has a heart to help people learn CPR, first aid and the Heimlich maneuver, essential, life-saving skills. She will come to you or you can set up a time to meet with her, perhaps asking friends or family to join you. If you are interested in learning or updating your knowledge on these skills contact Pam at [abc\\_cpr@windstream.net](mailto:abc_cpr@windstream.net).

**June 22** – Gina Goldermann filled in for Janice and Alice and the group talked about the things we do to volunteer. Not surprisingly we are a generous group with our time and abilities.

**June 29** – Ruth ? closed out the month by telling about her work with CK (Covenant Kids) Family Services, an organization that helps place foster kids and assist families who take in foster children. It started as a small agency and has grown due to the tremendous need for people to help in the foster care system. Ruth said more information on how you might be able to help is best gathered from Lori Hunt, the Front Desk Coordinator at 817-516-9100 ext. 100 or [lhunt@ckfamilyservices.org](mailto:lhunt@ckfamilyservices.org).

Thanks again to Janice and Alice for informing us of these organizations and people who are making our world a better place!

"A touching yet wised-up father-daughter road movie that's the best version of this sort of film you could imagine." [Owen Gleiberman](#), *Variety*.

The more Laura (Vera Farmiga) tries to set boundaries in her life, the faster those lines are crossed. Her 12-year-old son Henry (Lewis MacDougall) is in trouble again at school. Her own penchant for adopting stray dogs and cats threatens to overwhelm their Seattle home, and her phone keeps ringing with calls she refuses to pick up from her estranged father, Jack (Christopher Plummer). Maybe Jack will stick around. For Laura, the chance to accept, forgive, and heal will never go away.
