

To Whom it May Concern,

I would like to recommend Dwayne LeSassier to you for his music program. Dwayne is very personal and engages the residents by name and really makes them feel included in the activity. We have several people who come to play music but very few are able to get the kind of interaction with the residents and staff that Dwayne is able to with seemingly very little effort. He is very calm and relaxed in his demeanor with works perfectly with our dementia population. If it were possible I would clone him and use him in every area of our long term care facility. He has been such a blessing to us. I believe it is his desire to work one to one with our bed bound and hospice residents which again is such a blessing to us. If you should have any questions or want more information, please don't hesitate to contact me.

Sincerely,

Kim Tate
