

The History of Sokol/Sokolice

The Milwaukee unit of the world-wide American Sokol Education & Physical Culture Organization was formed in 1868. It has flourished over the years through participation in community activities, national events and the preservation of the Czech culture.

Although membership has strong roots to the Czech nationality, it is not restricted and prospective members of varied ethnic backgrounds are encouraged to join the organization.

Activities include classes in gymnastics for children ages 5 to 12, a Czech film series, and Czech genealogy. The organization is also involved in all aspects of the Holiday Folk Fair International.
