Premium Leather Girths...

*Made into 100% Ecological European Leather,
100% REACH Complaint*

Pre-GR 020222-13, Protector Short Girth with high end rubber part in middle, European UK Finish leather

Designed to direct pressure to the horse's sternum, which is less sensitive to pressure than the rib cage. The shape and innovative use of the materials protects and alleviates the elbow area from rubs. The shape also enhances range of motion in tight turns. The soft elastic on the sides of the girth offers no resistance or sharp edges that hinder movement

Pre-GR 020222-14, Stud Protector Girth with clip
*European UK Finish leather with pig print texture on surface,
Super soft waxy padding and stainless-steel roller buckle and elastic at both end.*

Premium Breastplates & Martingales...

Premium Breastplates & Martingales...

*Made into 100% Ecological European Leather,
100% REACH Complaint*

**Pre-BP 030222-05, Leather
Breastplate,
European UK Finish leather**

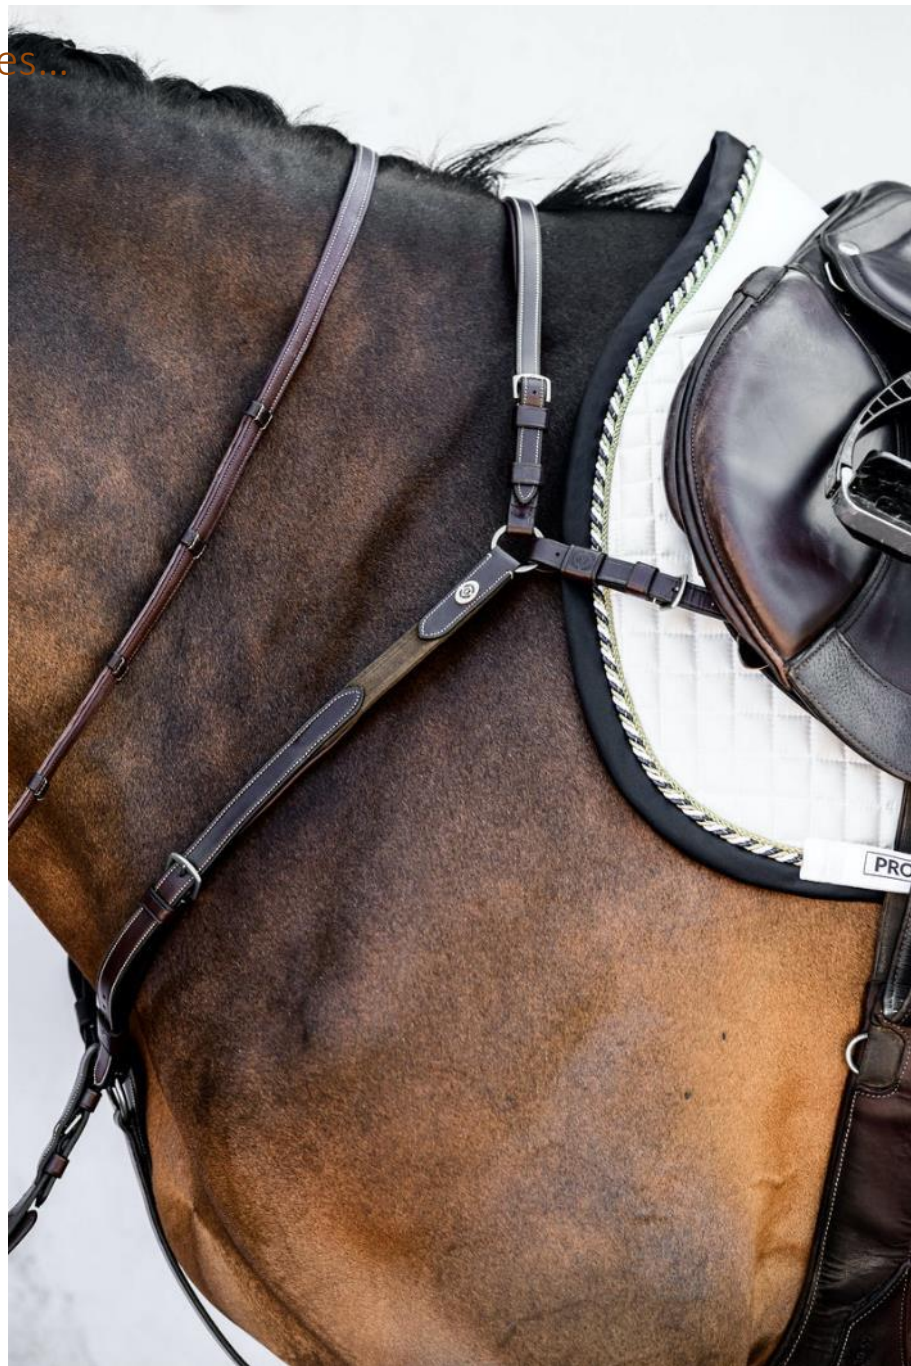

Extra wide and padded for additional comfort. It has an anatomically shaped curve to smoothly round the horse's shoulder without limiting the movability. A convenient hook attaches to the girth and the breastplate is adjustable on both sides of the withers.

Premium Breastplates & Martingales...

*Made into 100% Ecological European Leather,
100% REACH Complaint*

Pre-BP 030222-06, Leather Breastplate,
European UK Finish leather

A well-worked breastplate, extra padded along the withers for additional comfort. The martingale is adjustable on both sides of the neck. The clever Snap It hooks make it unnecessary to open the reins to connect the equipment which is great both out of a practical and safety point of view.
