

MEET

JANICE FITCHHORN

Janice Fitchhorn, Carter Place Executive Director. I have 25 years of experience in healthcare. My first career was as an Occupational Therapist for nearly 20 years. Although I worked in many settings during that time, I fell in love with rural health. Later, I transitioned to working in Elder Law as an Elder Care Coordinator. There I fell in love with our senior population. Carter Place encompasses the opportunity to care for our elders and has a small-town atmosphere, so transitioning to the Executive Director in 2023 seemed like the next best step in my career.

Carter Place is a rural assisted living community with an age in place model that offers 8 levels of care. We offer a vibrant community that is warm and inviting. Our residents enjoy several activities throughout the day and outings weekly.

CARTER PLACE
