

TREVOR GUETSCHOFF

#267

BACKGROUND:

Racing is more than a hobby to me; it is my passion. With the support of my family, I work diligently week after week to continue to improve and build my skillset. My passion is fueled by my family cheering me on and helping me to develop and grow. I am determined, focused and uninhibited by obstacles, because I use any obstacles I may encounter to help myself learn, and grow into an even stronger rider! Racing has also provided me with the opportunity to spend even more time with both my parents, Lisa and Grant Guetschoff, and enabled me to get my sister interested in the same sport as me! This is important because family always comes first to me. With my family's help, I have been learning the fundamentals of racing, and am planning on competing in at least 12 races in District 23. I am also working towards Loretta Lynn's qualifiers. I know with my family by my side we will be excellent brand ambassadors for any company who many choose to sponsor me, because we will always be professional while representing our sponsors, and we always strive to be upstanding people both on and off the track!

When I am not on my dirtbike, I enjoy spending time outdoors riding Stacyc bike, pedal bike, snowmobiling in the winter, swimming in the summer, and any other fun adventures with my family that come up!

GOALS:

- Continue to develop my skills and practice as much as I can.
- Continue to compete, place, and have a great time!
- Qualify and compete at Loretta Lynn's.
