

Preaching Christ Halifax

“Proclaiming the Gospel through biblical evangelism in Halifax”

ANALYTICS

We must be able to measure the success/failures of our ministry's abilities to achieve its mission. Seeing a clear picture of what works and what needs improvements is important for both our partners and our leaders. For this purpose, **Preaching Christ Halifax** uses a bi yearly online survey that we send to our members. We also track statistics to determine the following;

PROGRESS:

Where do you see yourself now in relation to your spiritual growth?

How would you rate your gift of evangelism now? 1 to 10

(Online Survey)

PROCESS:

How many people are in the discipleship process?

How many have come and not entered into the discipleship process?

How many are at the final stages of the discipleship process?

(Tract stats via mentors)

PEOPLE:

How many tracts where handed out

How many times have we been out? (Friday night, cruise ships..etc)

(Stats tabulated weekly)

Every 6 months, we will tabulate statistics of the **PROGRESS** of our members related to how they are growing in their spiritual walk and gifts of evangelism. We should see growth in all our members.

Every 6 months, we will tabulate statistics of the **PROCESS** of our members through our discipleship route. We should see new members enter into the program/follow through and become fully trained.

Every 6 months, we will tabulate statistics of the **PEOPLE** we share the Gospel with as well as times/locations where we operate. We should see consistency in our ministry activities and opportunities for growth.
