

# P3T, LLC ... WMS (Warehouse Management System) Deployment

## Numerous WMS Deployments

Foxfire

Blue Yonder (formerly JDA)

3PL (3P Link)

SAP EWM

## Problem statement

- Partial WMS in place without scanning function
- Limited capability and functionality
- Canned system with canned reports
- WMS implementation with IT Project Leadership
- Most WMS need solution design prior to install
- Process inefficiencies due to mostly manual system

## Action/ Result

- Established Material Flow Concept
- Process Mapping with System Requirements
- Developed detailed BRD (Business Requirements)
- Modified Warehouse layout and flow
- Designed WMS Concept
- Build and tested with contract service
- UAT (User Acceptance Testing)
- Train all operators
- Deployed System Live
- No Lost Time and No Missed Deliveries
- Reduced Total FTE by 4 per shift
