Pine Tree + Vetiver 50ml

Your journey begins with earthy notes of cedar and sage; you're calm, suspended in time and at one with nature. Tantalising citrus notes of mandarin and chamomile then take over and harness the allure of the great outdoors; fresh and invigorating. A scent to enliven your adventurous spirit, a scent to assimilate with your body. A cool fragrance with an androgynous edge that you can wear from dusk till dawn. Pine Tree + Vetiver can be doused on like cologne where its woody layers of vetiver come to the forefront, or as a refreshing eau de toilette with its delicate profile of bright and boisé notes, perfect for both men and women.

Cedarwood + Vanilla 50ml

An unexpected, androgynous version of the Vanilla flower: not the typical 'sweet' vanilla scent. This unisex fragrance marries the tender yet powerful notes of Vanilla, with the earthy richness of cedar wood, which provides the grounding, rich and woody qualities to the fragrance. To complement the mix, a subtle tease of jasmine welcomes a delicate bouquet of Patchouli and Rose: the essence of nostalgic charm. The result is a warm, inviting scent with both a woody appeal and a spritz of *warm freshness*, perfect for both men and women.
