**Design - Build Raw Water Transmission Pipeline from Mt. Coffee Hydropower Plant to White Plains Water Treatment Plant in Liberia – MCA-Liberia**

Dear,

The purpose of this letter is to confirm that Liaoning Ever Foundry was rewarded and executed correctly the order for the supply of the Ductile Iron Fittings with regard to the above mentioned project.

Details :

Production and Supply of the DN1200 Ductile Iron Fittings: to EN 545, inside and outside blue fusion bonded epoxy (FBE) coating RAL 5005 to EN 14901 min. 250µ DFT, with tyton socketed ends/flanged ends drilled to EN 1092-2 PN10, complete with EPDM tyton gaskets to EN 681-1.

Country : Republic of Liberia

Client : Liberia Water and Sewer Authority

Execution Period : September-2019 to November-2020

The professional approach of Liaoning Ever Foundry in terms of exporting and packing the goods as well as the product quality was more than satisfactory.

Kindest regards,

B. DE SMEDT  
Director Africa
