WHY ME?

I'M VERY QUALIFIED TO HELP.

A Latina FIRE Coach, certified in financial coaching and experienced in real-life survival. After 20 years of climbing the corporate ladder and still feeling financially stuck, I made a radical shift: I paid off debt, built wealth, and retired early to live a life of purpose and peace.

Now, I help people especially first-generation cycle-breakers do the same.

I've been broke. I've felt the shame. I've lived the paycheck-to-paycheck hustle. But I turned it all into a system that works and now I coach others into clarity, confidence, and financial independence.

If you're ready to stop surviving and finally build a life of freedom, I'm here to walk with you.

WHAT MY CLIENTS SAY

"Before working with Carilyn, I was living in survival mode. I'm a single mom with two kids and thought I'd never catch up financially. After just one month of coaching, I paid off my first credit card and built a mini emergency fund. Now, I have a plan, a system, and hope. I no longer cry when I check my bank account. Carilyn helped me believe in myself again."
— Jessica M., Orlando, FL

"I didn't grow up learning about money, so I always felt behind. Carilyn met me with so much compassion and clarity. She helped me get on a budget that actually works, improve my credit score by 80 points, and even open my first Roth IRA. Working with her changed how I see money and how I see myself."
— Luis R., Puerto Rican FIRE Client

"I was making over 6 figures but still broke and burnt out. I hired Carilyn thinking I needed a budget. What I got was a complete life realignment. I've since paid off \$10,000 in debt, built a savings buffer, and even started the business I've been dreaming about. Her coaching is a blend of mindset, faith, and finance and it's exactly what I needed."
— Maria A., Coaching Client & Entrepreneur
