The PLJ Group Seller's Guide

There are many steps and moving parts to get to the finish line...Each Property and each seller are unique, and so are the buyers...This is not a one size fits all plan, but a guide to get us started

Every Real Estate Transaction is unique

Let our experience guide you through

Know your Market

A Normal Market is enough inventory to supply 6 months of housing. If your town or area has 100 listings at any given time, and that same area sells 100 units per 6 month period, this is normal.

A Seller's Market exists when inventory is low and demand is high...Buyer's are forced to pay a premium on housing because of multiple offers...Bidding wars by multiple buyers will cause the price and terms to go up and benefit the seller.

A Buyer's Market exist when inventory is high and demand is low...Buyers have many choices. Sellers are forced to offer a lower price, or enhance the property giving the advantage to the buyers.

Talk with us...Marketing in a Seller's Market or Buyer's Market can be Very Different...

We Want our Seller's to Maximize their investment!

What are your Goals?

We are here to listen!

Why are you selling?

Are we a good fit?

What do you love about your home?

Where are you going?

Have you used other realtors in the past? Were your expectations met?

We would like a tour of your home, tell us all about it, we want to know everything!

We will always be honest about pricing your home, and advise you about the market and your competition.

We will come up with a customized marketing plan built around you and your goals!

We believe that through collaboration...we, as a team, can not only achieve your goals, but to exceed them...We work primarily by referral, and surpassing your expectations is our goal!

Showings are strongest when your listing is new, and fresh on the market...If you price too high, offers will not come in, and as time goes by, buyers stop coming. As the Days on the Market grow longer, your property gets flagged as overpriced, or worse, something must be wrong with it!...***Our job is to help you price your property so that you get highest and best, without going too high.***

Invite us In...

We have a professional stager and decorator to help you be your best!

The Property:

We will work with you to see your home with fresh eyes...Your home should look, feel, and smell as good as it possibly can. Light Bright and Airy are the buzz words we hear every-day from our buyers...De-clutter, touch up paint, repair imperfections, fix leaks, replace worn carpet, and re-stage furniture.

30% of all sellers wished they had taken the time and effort to stage their home, fix minor repairs, deep clean, minor updates. Most buyers are looking for, and will pay more for a move-in ready home

We will work with you to stage your home for buyers and photography...and that includes outside as well!

Now we are ready. We start with our professional photographer. We may take a hundred digital photographs in high resolution; some are fine-tuned or enhanced using state of the art equipment. Only the best photos and videos showing positive features of the property are used. We also have the ability to add aerial photography, using a drone, best used for larger properties and estates. Floor plans and virtual tours are also available.

Professional
Photography & Videos
Count !

Studies have shown that **professional** real estate **photography** can **help** a listing **sell** around 50% faster than comparable **homes** without **professional photography**.

The images & videos you use to represent your listing can have a major impact on potential buyers...Whether Real Estate Web Sites or Social Media

(Twitter, Instagram, Facebook, linked-in, Google, Etc.)

Let Us Help You Look Your Best!

The Internet:

- *Statistics show 94% of buyers start their new home search on the internet!*
- Your home is entered into Two Multiple Listing Services, ThePLJGroup.com, Christie's International Real Estate Group, and social media.
- The Two Multiple Listing Services will list all the pertinent information about your property including up to 50 pictures and a virtual tour. Realtors® will be able to see all the stats on your property, showing information, and the commission they earn if their buyer is the buyer of your property. - The MLS's distribute your property via International Data Exchange, and third party portals such as Zillow, Trulia, Realtor.com, Redfin Etc.
