16th	Berta Weathersbee Elementary School	84.20%

Country Cubette Racing Advice: Be Safe

When driving a goblin car, it is important to keep your eyes on the road at all times. Driving is a lot easier than we expected. Drivers need to remember where the power button is located. Drivers need to know that you have to press the button to drive. When you need to stop, the driver should release the red button and squeeze the brakes on the left side.

When you get in the car it is important to make sure you have on a helmet and gloves. The helmet buckle should be fastened tightly. In addition, you have to make sure your seatbelt is on tight so that you are safe at all times.

During the circuit race, it is important to know to always stay on the inside and pass on the right. The inside is the left hand side and the outside is the right hand side.
