PRESIDENT'S GARAGE

Hi There REBELS Family!

So, fast forward for those of you who haven't heard, our President **Steve Lewis** has resigned, and the Board Members ask if I could help out as Interim President for the rest of his term in 2020. Vice Former Vice President **Jack Takemoto** is safely in Hawaii (and probably quarantined for two weeks, which is a COVID-19 requirement when going to Hawaii). **Lydell Otley** offered to serve as Interim Vice President and we both were accepted by a vote of the Board at a Special August Executive Board Meeting.

I want to thank both Steve and Jack for their dedication, help, and support in keeping the Club going during this very challenging year. They will be missed - Lydell and I have **BIG SHOES TO FILL!**

We had a good General Meeting for August at the South Freddy's Frozen Custard & Steakhburgers parking lot. We had one guest - **Ann Anderson**, wife of Andy Anderson, of the original Rebels Car Clubs. We also had two new Members, **Bob Hookham** and **Mike Tobey**. It was great to have all of them with us, and Welcome to the **REBELS Auto Club!**

I hope to see 'ya soon around the corner!

Tom Dingwell, President

This is Fun! All right, all you young & older whipper-snappers, let's see if you are as smart as you think you are! Be honest with yourself, and no cheating! See how you do (the average score is 73%). **REBELS** can do better!

This will rattle the cobwebs in the old brain...

REBELS VIDEO OF THE MONTH

Riding in the Little Red Wagon...

As they say in this video, "You've got to see it to believe it!"

It all started as a retirement project for Fred Keller and Judy Foster.

Judy says the words they hear most often are, "Awesome!"

This couple is having the time of their life, and you can tell that from this short video (about 3 minutes).

REBELS JOKE OF THE MONTH

Eileen and her husband Bob went for counseling after 25 years of marriage. When asked what the problem was, Eileen went into a passionate, painful tirade listing every problem they had ever had in the 25 years they had been married.

She went on and on and on: neglect, lack of intimacy, emptiness, loneliness, feeling unloved and unlovable, an entire laundry list of unmet needs she had endured over the course of their marriage.

Finally, after allowing this to go on for a sufficient length of time, the therapist got up, walked around the desk and after asking Eileen to stand, he embraced her, unbuttoned her blouse and bra, put his hands on her breasts and massaged them thoroughly, while kissing her passionately as her husband Bob watched with a raised eyebrow!

Eileen shut up, buttoned up her blouse, and quietly sat down while basking in the glow of being highly aroused.

The therapist turned to Bob and said, "This is what your wife needs at least three times a week ... can you do this?"

Bob thought for a moment and replied, "Well, I can drop her off here on Mondays and Wednesdays, but on Fridays, I play golf."

REBELS MYSTERIES OF LIFE

From the convoluted mind of Gary

Should you ask your Mom which sexual position produces the ugliest children?

Does OJ Simpson want to move to West Virginia because there, everyone has the same DNA?

When the flag at the Post Office is flying at half-mast, does that mean they are hiring?

Do men find it difficult to make eye contact because breasts don't have eyes?

Are there no Puerto Ricans on Star Trek because they're not going to work in the future either?

Do you call an Alabama farmer with a sheep under each arm a Pimp?

Would a line of rabbits walking backwards be a receding hairline?

If the Post Office designed new stamps with pictures of lawyers on them, how would people know which side to spit on?

If you have amnesia and Deja vu at the same time, will you have forgotten this before?

Ugly people aren't two-faced, because if they were, wouldn't they use their other face?

Why is it that in just two days tomorrow will be yesterday?

Is Dijon vu the same mustard as before?

If you were planning to live forever is it so far, so good?

To practice safe eating, should you always use condiments?

Isn't it frustrating when you know all the answers, but nobody bothers to ask you the questions?

Why do brain cells come and go, but fat cells live forever?

If the customer is always right, then why are they always coming to us for help?

Why does the sun lighten our hair, but darken our skin?

Why is it that rain drops, but snow falls?

Why is it that to stop Windows, you have to click on "Start"?

Should bankruptcy lawyers expect to be paid?

Is it true that the more you cry, the less you have to pee?

When you absolutely, positively have to stay up all night, do you take Federal Expresso?

Are Jimmy Swaggert, Jim Bakker and Jessie Jackson working on a book to be titled: "Ministers Do More than Laypeople"?

Is a dead parrot a polygon?

Since the word "MANKIND" is basically, made up of two *separate* words: "mank" and "ind", and It's a mystery as to what these two words mean, is that why mankind is a mystery?

If the toilet was stolen in the police station, would they have anything to go on?

Was "MOP AND GLOW the floor wax used by Three-Mile-Island cleanup team?

Is it true that China sent us 50,000,000 cases of Viagra because they heard that our entire country can't get an election?

Would you kill for a Nobel Peace prize?

Is chastity curable, if detected early?

Could it be that the reason older people seem to read the Bible more is that they're cramming for their final exam?

Why is it that you never really learn to swear until you learn to drive?

Why do people never say, "It's only a game", when their team is winning?

Could it be that experience is the worst teacher because it gives the test before presenting the lesson?

Would you call a cow that that has just given birth, de-caffeinated?

Bet you thought I would run out of these, didn't you? (everyone handles the Corona Virus Pandemic differently...)

So, will there be more of these next month? The answer is "Yes." (but sadly, they don't get any better!)
