## PRESIDENTS GARAGE

Hello **REBELS FAMILY**,

We ended last month with an event of great success. The **SCCA Spring National Event** held in Airpark on the westside of the Lincoln airport at the old air base with the Offutt airmen and planes was quite a scene. Approximately 600 cars showed up. Only one main track this time for the test and tune. The Event started off a little shaky, mainly due to everyone being off a year or more because of COVID. After things got up and running, everything turned out smooth as it could be..

A little rain still didn't stop the races though, and I *definitely* got my car fix in that weekend

It was very kind AND cool of the Active Duty Air Force to use one of their jets for a display in a open house meet and greet. It was really good to discuss with them about the similarities & different types of missions of the RC-135s TC-135, WC-135s they maintain and fly with all the similarities and differences of missions of the KC-135 air refueling plane that I maintain and fly on at the Nebraska Air National Guard. The plane on display was a plane that was originally a KC-135 tanker in 1962 but was converted over to training plane later in its life.

The month of June is going to be packed a lot car shows and events. Stay tuned to our Coordinators Report for details.

The **REBELS** Car Show is coming together. I would like say, the same as always, It was a little juggle and a shuffle this year due to COVID. Things are picking up from our last attempted show though. I can't wait until June 27th to see the cars and who shows up. Really you never know.

See you all at the trophy build get together, and the Pioneers Park Pavilion Picnic

## COORDINATORS REPORT

Thank you to everyone who helped out at the Test & Tune track during the SCCA Spring Nationals. A very special thanks to **Roger Schwab** who volunteered for more gate hours than anyone! Roger took on four spots and one was the overnight shift. **Bill Moss** stepped up to the other half of the early morning spot on Sunday. On Sunday night the **REBELS** cooked & fed over 200 hamburgers & chicken on the grill.

The 'Test & Tune team' was very successful. Contestants that came to the Test & Tune track were very appreciative of how the Test & Tune track was run, even without cone workers on the first day.

### REBELS 'VIDEO' OF THE MONTH

#### The Day the Music Died...

There are few of us adults, of any age, that have not heard Don McLean's classic song "American Pie."

But many have been confused with the meaning of the lyrics. This clever video helps explain. You will find it interesting (and in the process enjoy the song again). **Take 8 minutes and:**

## REBELS MYSTERIES OF LIFE

From the convoluted mind of Gary

If Barbie is so popular, why do you have to buy her friends?

I almost had a psychic girlfriend but she left me before we met

What is a *sanitary* landfill?

Why does "slow down" and "slow up" mean the same thing?

Why does X stand for a kiss and O stand for a hug?

If firms keep going out of their way to give me credit, should I be deeply indebted?

Why do we say something is out of whack? What is a whack?

Why do we say something's 'out of order' when it's broken but we never say 'in of order' when it works?

How do you make an *exact* estimate?

Could it be that people don't have a problem with drugs, they just have a problem with the police?

Why is it that no word in the English language rhymes with month, orange, silver, or purple?

Why is it that we recite at a play and play at a recital?

Why is it that writers write but fingers don't fing, grocers don't groce and hammers don't ham?

Why do they put all those grocery lanes in the stores when they only keep one or two open at any given time?

If a mirror reverses right and left, why doesn't it reverse up and down too?

Statistics show that American workers labor the first three hours of every day just to pay their taxes, so is the reason we can't get anything done in the morning, because we're government workers?

Does the back of an Iowa quarter say "four of these equals one dollar"?

Can you "FIGHT BACK" by filling out your tax forms with Roman numerals?

Could someone tell me why I need 350 TV channels?

Why should I have any faith in my doctor, since all his patients are still sick?

If they tell you that you are gullible, should you believe them?

Is "graduate student" an oxymoron?

Is drilling for oil boring?

If Wurlitzer merged with Xerox, would they market reproductive organs?

Is it bad luck to be superstitious?

Is Santa so jolly because he knows where all the bad girls live?

If you went to a book store and asked the salesperson where the self-help section was, wouldn't that defeat the purpose?

Could it be that all those trick-or-treaters wearing sheets aren't going as ghosts but as mattresses?

Is the best thing about egotists that they don't talk about other people?

Do pediatricians play miniature golf on Wednesdays?

If God dropped acid, would he see people?

If work is so terrific, how come they have to pay you to do it?

If you ate pasta and anti-pasta, would you still be hungry?

If you try to fail, and succeed, which have you done?

Why is it called tourist season if we can't shoot at them?

Is there an equestrian anatomical miracle going on in the world?

Why are there more horses' asses than horses?

What would you do if some one asks you about your vow of silence?

Is today's subliminal message:

?

**Bet you thought I would run out of these, didn't you? (everyone handles the life differently...)**
