

Vaginista NOW

Kit

Ready to take your **sexual experience** to a whole new Level? **Now MedClinic** introduces the **Vaginista Now Kit!** "Female sexual dysfunction (FSD) may be due to physical or psychological factors. In the United States, about **43% of women report sexual problems**, and **12% report that these problems are the cause of distress.**" This special package is designed to **increase blood flow to the clitoris/genital tissue and improve genital response along with overall sexual experience.**

KIT PRODUCTS

OXYTOCIN "Love Hormone"

Oxytocin (Oxt or OT) is a peptide hormone and neuropeptide normally produced in the hypothalamus and released by the posterior pituitary. It plays a role in **social bonding, reproduction, childbirth, and post childbirth.** Oxytocin is released into the bloodstream as a hormone in response to **sexual activity and during labor.**
