

DESCRIPTION

Bellcom 2U Cable Manager Double Side is a standard 19 in. rack-mount cable management panel designed to organize cabling on both sides of the rack while providing a neat, clean appearance for structured cabling installations.

KEY FEATURES

- Helps eliminate cable stress and supports organized cable routing
- Double-sided finger duct design for front and rear cable organization
- Cable management fingers with cover for neat cable presentation
- Predrilled mounting holes for quick installation in 19 in. racks
- Removable cover slides off for fast adding and removing of cables
- 2U rack space design for standard rack and cabinet installations
- Black molded plastic construction for professional installations

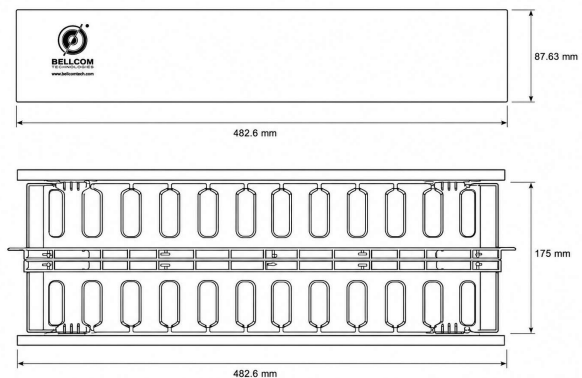

APPLICATIONS

- Network cabinets and 19 in. equipment racks
- Structured cabling systems
- Telecommunications rooms and data closets
- Data centers and LAN installations
- Front and rear horizontal cable routing
