

DE-ESCALATION TRAINING

at Fort Hays State University

EVIDENCE-BASED

The National De-escalation Training Center (NDTC) program is the most comprehensive, innovative, and evidence-based experiential program available for law enforcement professionals. Based on the DISC Esoterica® personality assessment system – a tested and proven method to identify actional and personality traits in human behavior – NDTC training teaches officers to identify personality characteristics quickly, to adjust their approach and maximize effective communication and interaction with a subject.

THE NDTC MODEL AT A GLANCE

Individuals trained in the NDTC curriculum will learn best practice de-escalation methods to:

- Respond in a procedurally just manner
- Recognize individuals experiencing a mental and/or physical crisis
- Apply behavior modeling to resolve potential conflicts
- Recognize and respond to active and passive emotional states
