African Image Savannahs Basic Raw recipe

You will need :

Meat grinder that takes bone, I recommend either the Tasin 108

Or STX turboforce II Platinum

(both around \$ 200.00, link on pic above)

Chicken, Chicken gizzards, chicken or beef heart

AND Nuvet supplements

(link on my website with order code, link on pic above)

Start with 50lbs bone in chicken with 10% bone =

50 lbs bone in thighs/ and or legs

12.5-15 lbs chicken hearts and or beef heart (I like to mix both)

5-6 lbs chicken gizzards

Start by chopping chicken (with bone) sized to fit thru grinder, then grind all ingredients mixed together

separate into 3 day portions and freeze anything you will not use within 3 days

At EACH feeding (2x a day) add Nuvet supplements and 1/4 cup water in a bowl and mix with raw mixture and 1/2 pump Omega oil in 1 of the 2 feedings for the day
