African Image Savannahs Basic Raw recipe

You will need :

Meat grinder that takes bone, I recommend either the Lem #12

Or STX turboforce II Platinum

Chicken thighs, Chicken gizzards, chicken heart or beef heart,

Omega oil & Nuvet supplements is all you need

(link on my website for Nuvet with order code & link on pic above)

Start with 50lbs bone in chicken with 10-15% bone =

50 lbs bone in thighs and legs

12.5-15 lbs chicken hearts and or beef heart (I like to mix both)

5-6 lbs chicken gizzards

Start by chopping chicken (with bone) sized to fit thru grinder, then grind all ingredients mixed together

separate into 3 day portions and freeze anything you will not use within 3 days

At EACH feeding (2x a day) add Nuvet supplements and 1/4 cup water in a bowl and mix with raw mixture and 1/2 pump Omega oil in 1 of the 2 feedings for the day
