

ARCSPACE

Design and Build

2021

““””

Intelligent and inspiring design combined with excellent delivery has two distinct groups of benefits:

The project benefits come from working with Simon Joss & ARC Space as a one stop shop to both design and deliver your new work environment. A holistic view and understanding of the project can deliver significant pricing benefits because we can engineer best value. Our clients also gain great confidence in the management and delivery of the project.

The long term benefits of your new space can be forecast to show financial efficiency.

The design of your office will also create improved productivity and a positive impact on staff attraction and retention.

A final benefit is the engagement and increased awareness of your brand and business by staff prospects and clients who work or visit your new work space.

ABOUT US

Simon Joss is a leading expert in the workplace. He has 20 years of experience in creating inspiring, intelligent workplaces which energise and engage the people who use them. Along with the ARC Space project team, who innovate in their approach to design whilst taking into account and respond to your brief and budget. ARC Space support your project with in-house experts, reducing risk and guaranteeing quality of delivery.

THE CHANGING FACES OF OUR WORKPLACES

We realise the value of a great workplace and the impact it has on your clients and your staff. We also understand the importance of managing costs for your business and the importance of creating an economical and flexible environment that can evolve with your needs. *Through our design project we see examples where:* Inspiring and intelligent design can combine to increase productivity and staff happiness whilst simultaneously optimising running costs. Engaging clients with a positive first impression helps develop and win new business. Motivated staff have increased engagement leading to improved collaboration with colleagues, productivity and staff retention.

Over the last 3 years of work place studies we have seen an average potential space savings of 28% achieved through better planning.

Technology is transforming the way we work. Businesses now operate at a faster pace than ever before.

An environment that is welcoming, comfortable and inspiring creates a happier and more productive workforce.

Businesses are embracing the opportunity to use their workplace as an extension of their brand and values.

“By working with clients and developing a concise strategy for their space, we uncover the essential information required to develop a space that is in alignment with operational processes.”

SIMON JOSS
MANAGING PARTNER

HOW TO CREATE GREAT SPACE

The delivery of your project is our responsibility, giving you one point of contact rather than managing multiple contractors. Our specialist Contracts Team have managed millions of dollars worth of commercial fit-out projects. They understand the importance to our clients, of achieving cost certainty as well as assuring quality of finish.

Clients are assigned an ARC Space Primary Point of Contact for each project to simplify communication and keep you in control throughout the project. We commit to taking the pressure and hassle of project management from your desk onto ours.

Inspiring Design –
creating a working environment that makes
clients and staff proud to work with you.

Intelligent Design –
ensuring that your space is designed around
your business, not the other way round.

Excellence in Delivery –
delivering projects on time and within our
clients' budgets.

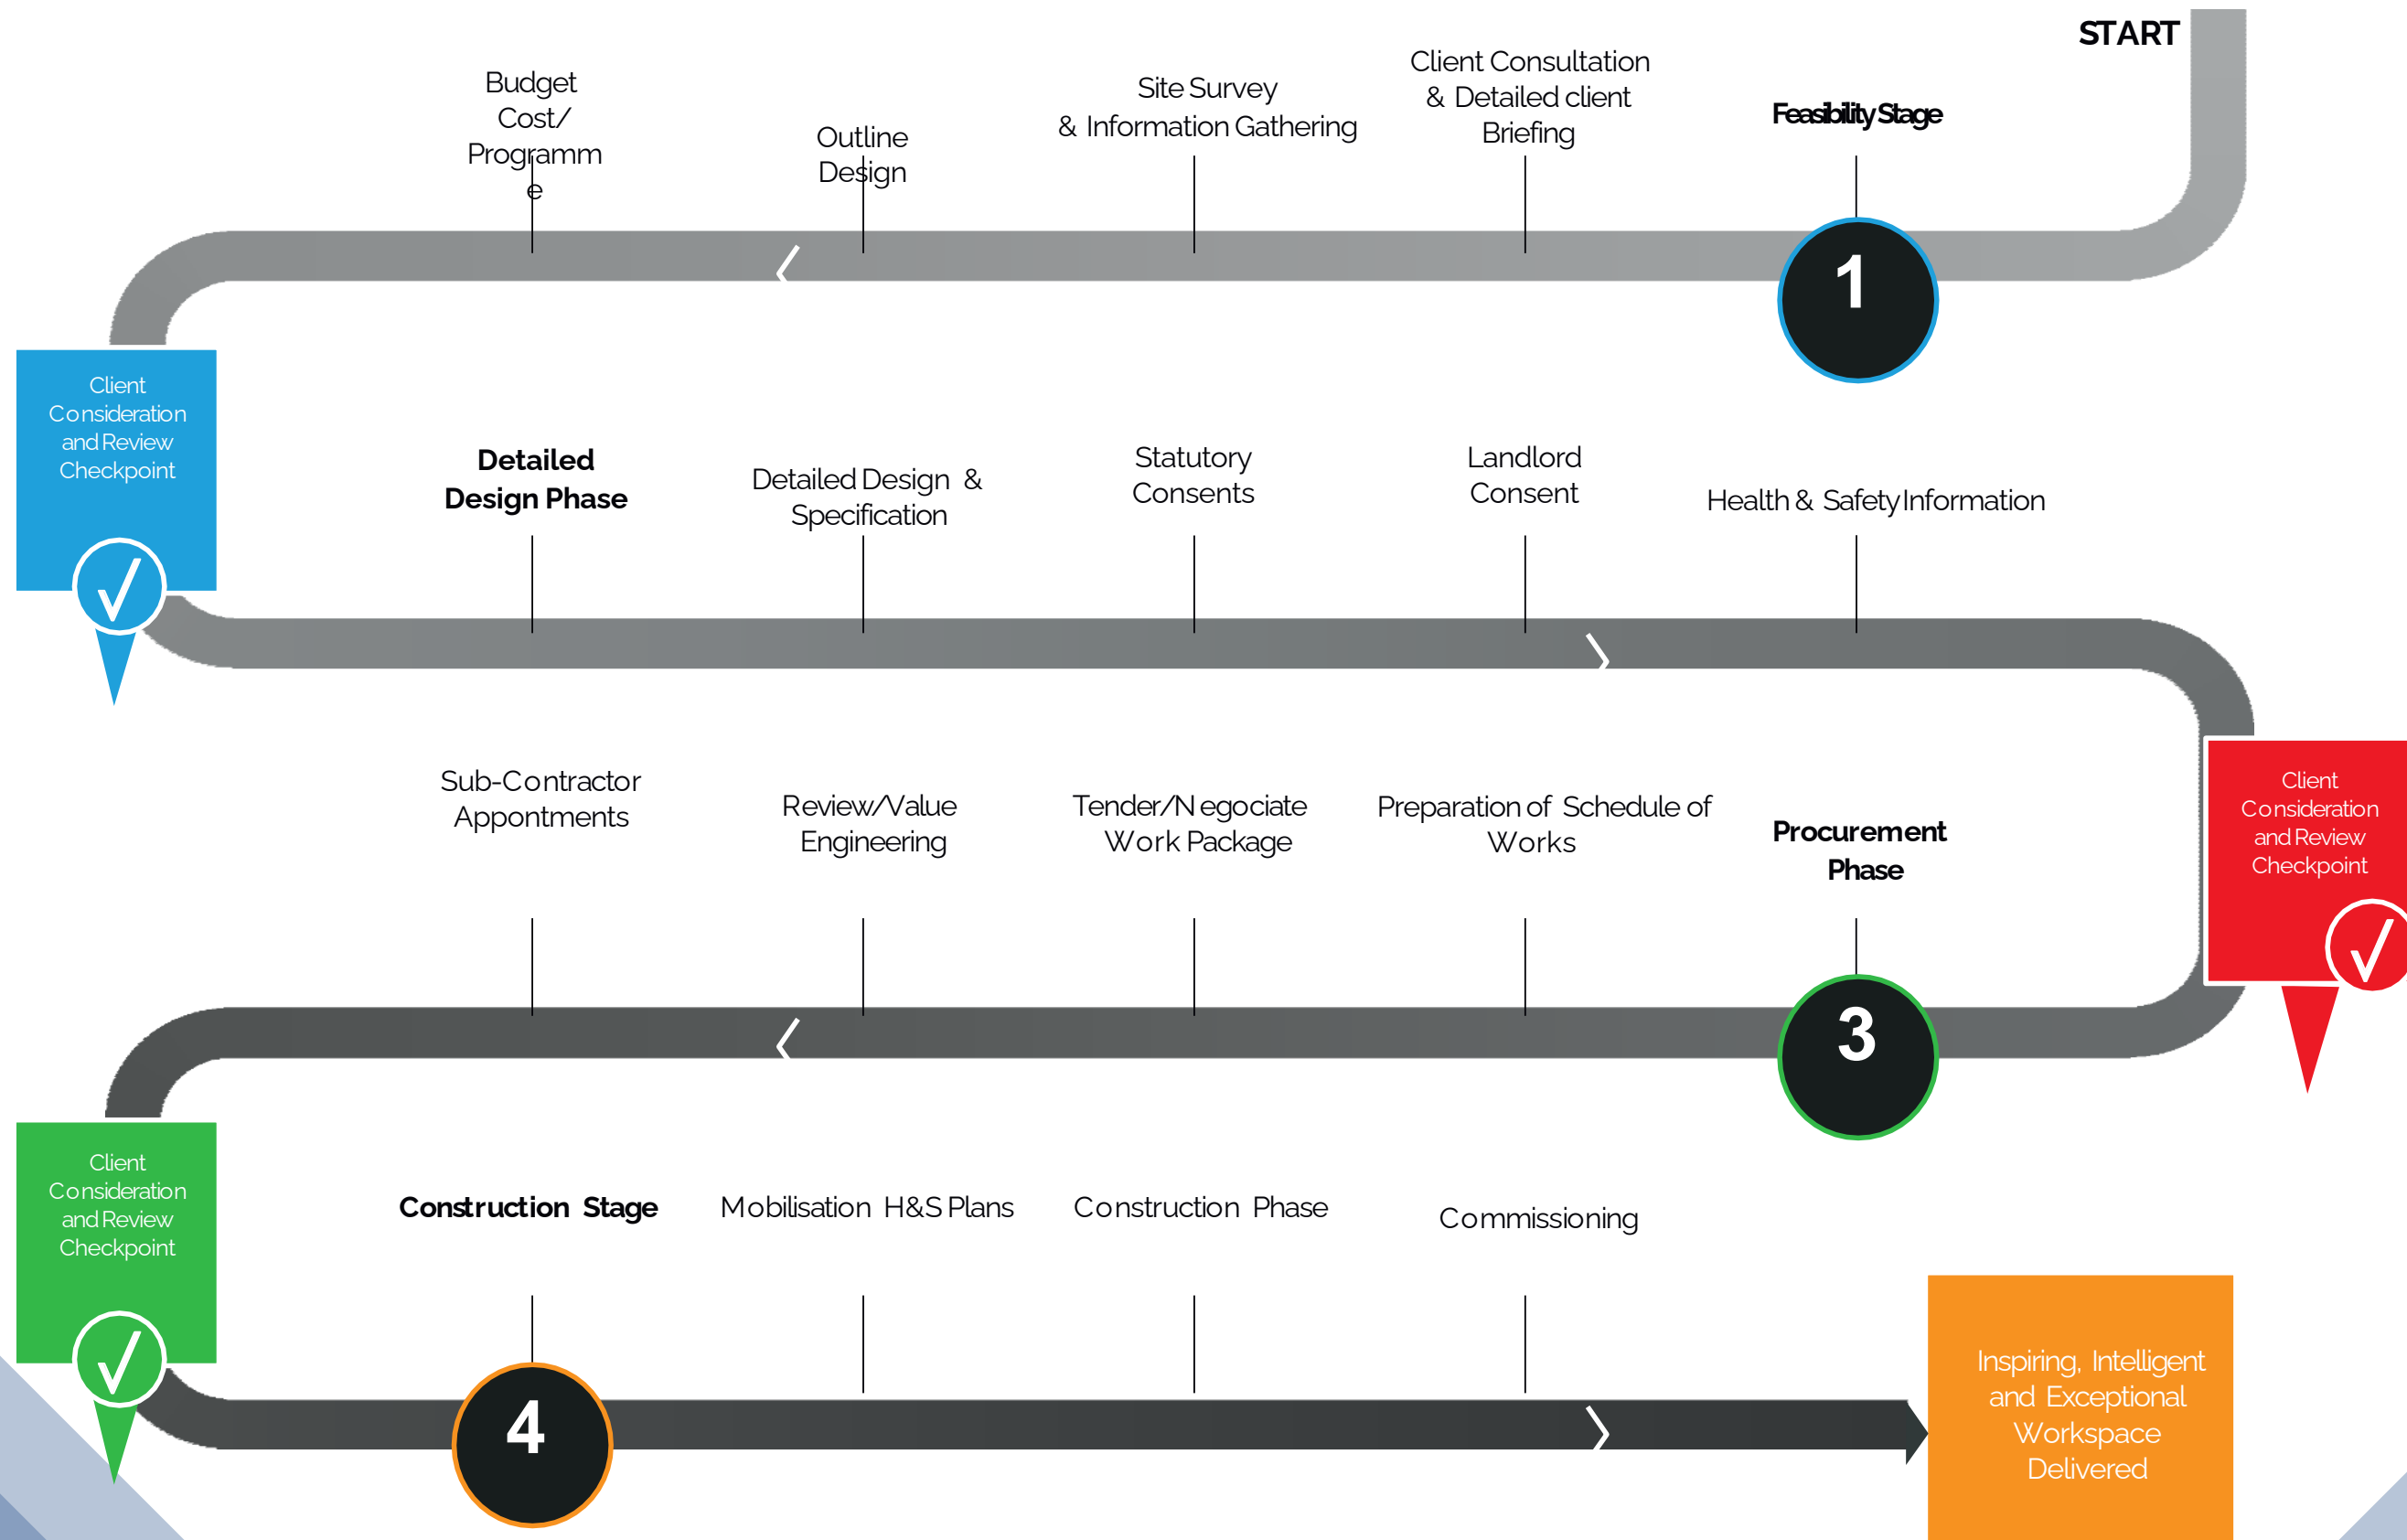

*You are in control throughout the project,
but we take the pressure and hassle of
project management from your desk
onto ours.*

OUR PROJECT PROCESS

We provide an easily tailored, and scalable method for the management of all types of projects.

This diagram is an explanation of the ARC Space project process used to help guide you when managing projects with us.

The 4 main stages have been broken down into:

1. FEASIBILITY
2. DETAILED DESIGN
3. PROCUREMENT
4. CONSTRUCTION

With the process finishing with quality assurance.

OUR WORK

Simon & his teams constant communication with all parties involved is one of the key points that contributed to the success of our project. Ensuring straight-forward details correspondences with swift turnarounds.
