

# #The Pledge

It is simple, concise, and easy to follow (and share)!

1. I pledge to do my part to fight climate change and to promote climate justice.
2. I will act to help reduce my climate footprint and the footprint of others.
3. I will advocate for climate justice and for the fight against climate change.
4. I will support efforts to mitigate the impact of climate change on vulnerable and indigenous peoples around the world.
5. Together, by each doing our parts through personal action, we will make a difference!
