SANTA'S TREE FARM PANEL QUILT

FINISHED QUILT SIZE 64" x 64"

Please read all instructions before beginning this project.
Yardage calculated using a 42" usable width of fabric.

Pattern designed by The RBD Designers.

GENERAL INSTRUCTIONS

Please check www.rileyblakedesigns.com/pattern-updates or scan the QR Code for any revisions before starting this project. This pattern requires a basic knowledge of quilting techniques and terminology. The quilt and block diagrams portrayed are virtual images. The layout and look of your project may differ when using actual fabric. It is not recommended to prewash fabric before cutting and assembling.

Always verify your panel size before beginning. If your panel measurements differ from those given in the pattern, trim to the desired size or use coping strips to alter the size of your panel. If coping strips are needed, add oversized, coordinating strips of fabric to the necessary edges of the panel, then trim to the size specified in the pattern.

WOF = Width of Fabric

RST = Right Sides Together

SNF = Stitch and Flip

SEWING TECHNIQUES

Sew all seams RST and with a $\frac{1}{4}$ " seam allowance unless stated otherwise. Refer to the Quilt Layout Diagram for placement of the prints. Press seams as desired unless stated otherwise. Dimensions listed in steps are unfinished sizes. Please refer to the following general sewing technique as this method is referenced throughout the pattern in its abbreviated form.

STITCH AND FLIP METHOD (SNF)

Place (2) pieces RST, matching raw edges in the corner to be replaced. Draw a diagonal line on the wrong side of the smaller piece across the corner. Sew on the drawn line. Trim the seam allowance outside the sewn line to $\frac{1}{4}$ ". Flip the smaller piece away from the larger piece and press, replacing the corner. The size of the larger, original piece does not change.

BLOCK ASSEMBLY

1. Use the SNF method to make the units shown below, referencing the diagrams for quantity, proper placement, and orientation.
