

About us

Sam Colucci was the fearless leader of our family. Married for 25 years, our greatest accomplishment is raising two amazing children. Sam was diagnosed with Glioblastoma (brain cancer) in 2019. As you can imagine, this was devastating news. Sam died in 2020 at the age of 51.

Sam's battle with cancer is only a small (yet significant) part of his life. Sam was known for being humble and kind. He was always there to lend a helping hand. It is our desire that his legacy live on in our actions. We are certain that Sam would want us to assist other families in their grief. We have the opportunity and responsibility to make sure that Sam's legacy (and that of so many others) is not marred by cancer.
