PALTALK SET UP NO MIC FOR WINDOWS

BASIC INSTRUCTIONS

STEP 1:

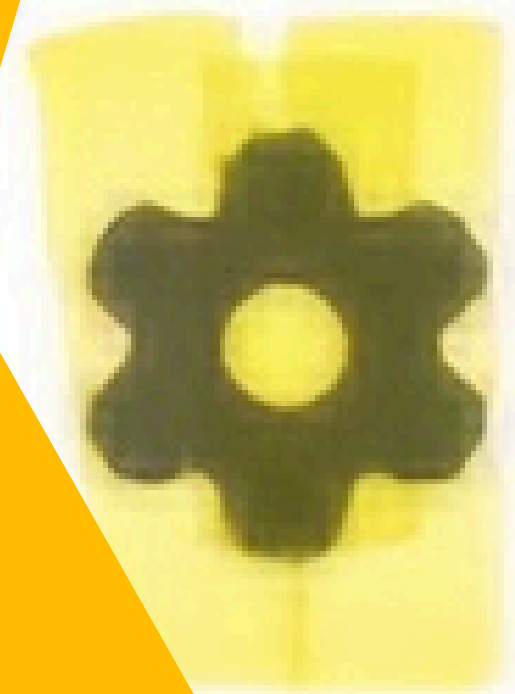

Open your paltalk settings by clicking on the gear near the top right of your Paltalk friends list.

ABOUT US:

WE DO NOT REQUIRE MUCH TO SPIN!

Our chatroom only requires that you have good quality sound. No need to talk on mic, though that is preferred, and no paid nickname or tryout required!

STEP 2:

- IN THE AUDIO AND VIDEO:
- Select Microphone:
- Share Computer Audio
- Select Speaker:
- (Your computer's output speakers)
- Close Settings

STEP 4:

Now you're almost ready! Have a friend or room admin do a sound check for you! Most of our admins have access to the sound check room, and many can help pinpoint any small issues you may have to correct.

STEP 5:

JOIN THE QUEUE AND SHARE YOUR MUSIC WITH US!

That's all there is to it! Join our queue and entertain day or night! Join in on our nightly music themes, and expand your music library! See you there!
