To download the GMCC advisor app, first download the Apple Testflight app from the App Store.

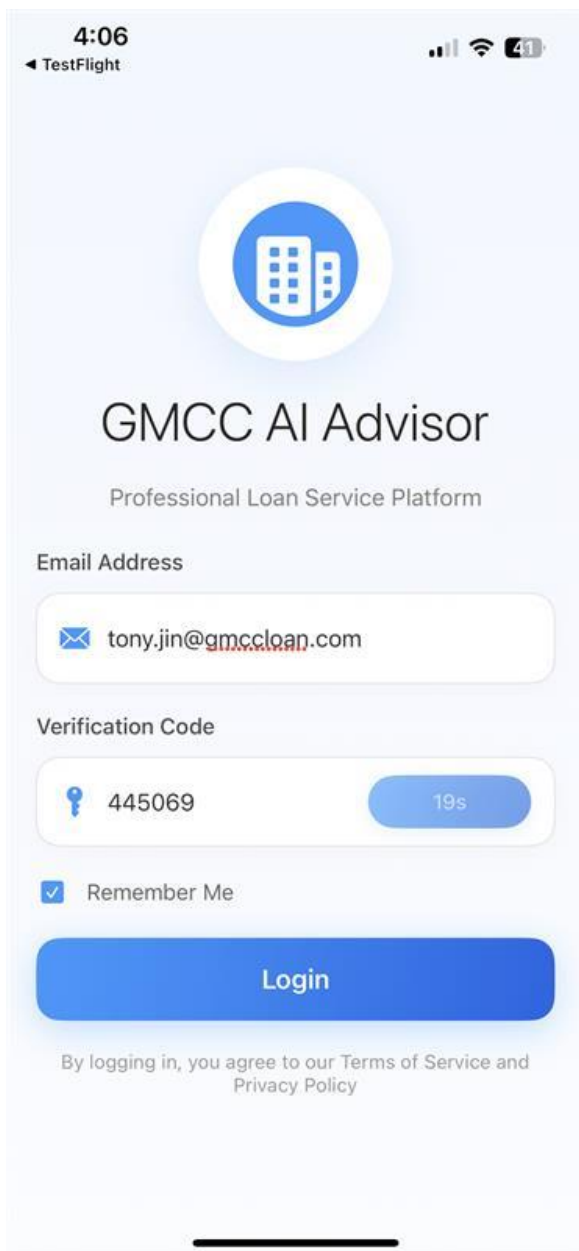

Then open this link (http://testflight.apple.com/join/Qk9MzJr9) on a browser and then open in the app to install. You will need to login with your gmcc email and receive a verification access to unlock all the features of the app.

Once redirected to the TestFlight app, your screen should have an install button. Please click it and install the AI Advisor Beta.

Then open the app and input your gmccloan.com email and check your email for a verification code.
