

## Guardian - Project Names

**Date:** 13 MAR 2025

**Version #:** 02

**DOC #:** SFS-15

**Owner:** Jordan Hollingsworth

It is imperative that projects are named correctly in Guardian for consistency, data analysis, aligning with Incident Reports in VERO, AEPTCS, etc. Below are the guidelines for naming station and line projects.

### 1. Stations

Station names need to be verified on CICO.

#### 1.1. Smaller Stations

DO:	DON'T:
Paulding Station	Paulding Substation Paulding Paulding CB A

#### 1.2. Larger Stations

DO:	DON'T:
Sullivan Station 765kV Sullivan Station 345kV	Sullivan 765kV CB B Sullivan Substation Sullivan Reactor Project Sullivan Station EPC Sullivan Station Extension

#### 1.3. T-Line

DO:	DON'T:
Aviation – Waynedale 138kV	Aviation to Waynedale Aviation-Waynedale Aviation Waynedale 138 Aviation-Waynedale Rebuild Aviation-Waynedale T-Line Aviation-Waynedale Retirement Aviation-Waynedale Install Aviation-Waynedale Demo

All Telecom projects have “(Telecom)” out from the project name to denote the project belongs to Telecom & NOT Energy Delivery.
