

Edenesque Distributor Beverage Line Sheet

Edenesque: /ē – dēn – esk/
adj: of or like the Garden of Eden; represents a return to the basics of clean and healthy eating. We are committed to the idea that wellness begins and ends with whole ingredients and the desire to enrich the lives of those who drink our natural milks.

Our Story

Our founder, Leslie Woodward, created Edenesque to share delicious, indulgent products that would foster the community's health and nutrition. Our flavor-first milks have up to 15 times more nuts or oats than the leading brands and are made without preservatives or stabilizers. We hand craft our plant based milks with premium ingredients; our honey, maple syrup, and oats come from local, sustainable farmers in the Hudson Valley, and we use Madagascar vanilla bean and other premium ingredients sourced from around the world.

We're a Black- and woman-owned company that understands the intersecting challenges of climate change, health, food insecurity and justice. We integrate our values into every aspect of our business, from sourcing and production to hiring and packaging. We believe that wellness starts with whole ingredients and a commitment to enriching the lives of those who drink our milks.

Our Promise

Our plant-based milks are hand crafted with up to 40% nuts and premium ingredients sourced from farmers in the Hudson Valley and around the world. Separation is a natural process when there are no additives, preservatives or stabilizers. Just pure nut milks and non-dairy beverages.

Our high integrity non dairy beverages are small batch and handcrafted, nutrient dense, gluten free, vegan, keto-friendly, paleo-friendly, and made with organic ingredients. We use reusable glass bottles and recyclable, eco-friendly plastic bottles and labels. Each flavor is carefully handcrafted with the freshest ingredients to bring out the most flavorful and beneficial essence of its kind!

Edenesque is a socially-conscious manufacturer of artisanal nut milks and non-dairy beverages made with organic ingredients.
