

TELEVISION + WIFI and video on demand

*On board, without satellite,
anywhere using 4 G
and even at home...*

A logo consisting of the words "WIFI" and "TECHNOLOGIES" in white, bold, sans-serif font, stacked vertically. The text is centered within a stylized, multi-layered purple flower-like shape with overlapping petals.

**WIFI
TECHNOLOGIES**

You have your own WIFI mobile network

WABNET TV has a built in 4 G transceiver, a WIFI powerfull router and a TV Internet converter with access to 3.000 + world TV programs from any country and culture.

WABNET TV, is a TV unit manufactured by a major brand and modified for installation on boats. It generates a powerful WIFI network for 8+ computer Internet wireless links if you give them an access code.

WIFI AIR TV can be taken home where it can be an additional TV set, linked to your domestic Internet. It will outperform your actual tele distribution supplier as to the numbers of programs available.

WABNET TV is a product designed by WIFI TECHNOLOGIES out of its experience in WIFI for commercial aircraft..
