SGuard Catalog

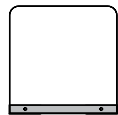

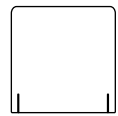

SGUARD STANDARD MODELS

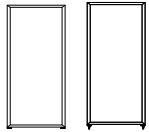

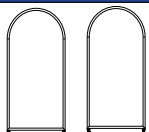

Portable Models With Access Window

Section 1: SG-W	
	A single piece of acrylic with a radius or square window (standard) that allows access to either side. The base is 2" aluminum angle on each side, to provide support. p. 5
Section 2: SG-FW	
	Requires no tools to assemble. This Guard has 2 acrylic feet that allow it to stand on it's own. Radius or square window (standard) that allows access to either side. p. 14
Section 3: SG-AW	
	3 sided bent back acrylic, with solid aluminum base and standoffs allow for a raised look off counter. Radius or square window (standard) that allows for access on either side. p. 19

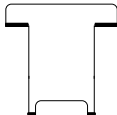

Portable Models Without Window

Section 1: SG	
	A single piece of acrylic with a 2" aluminum angle base on each side to provide support. p. 22
Section 2: SG-F	
	Requires no tools to assemble. This Guard has 2 acrylic feet that allow it to stand on it's own. p. 24

Free Standing Models

Section 1: SG-FR • SG-FRW	
	Designed to stand on the floor, they divide spaces that have no table-tops. Sturdy HED-100 beveled aluminum frame, with the option of wheels for easy mobility. Graphics optional. p. 26
Section 2: SG-RFR • SG-RFRW	
	Designed to stand on the floor, they divide spaces that have no table-tops. Sturdy HED-100 beveled aluminum frame with a radius top and the option of wheels. Graphics optional. p. 27
Section 3: SG-RFRTW	
	Designed to stand on the floor, they divide spaces that have no table-tops. Sturdy HED-100 beveled aluminum frame with a radius top. The no-trip option of 3 wheels for easy mobility. Graphics optional. p. 28

"T" Shaped Teller Model with Window

Section 1: SG-TW	
	Main use for inside of banks or credit unions with teller windows. Custom sizes for various counter heights. 4 extrusion pieces support the acrylic in the window, 2 on the top and 2 on the bottom. p. 29

SGUARD STANDARD MODELS

Stationary Models

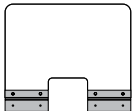

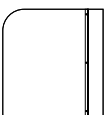

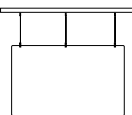

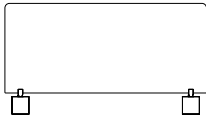

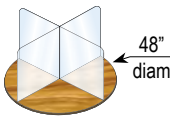

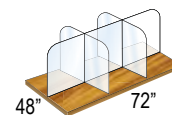

Section 1: SG-CTB (Counter Mount)	
	A single piece of acrylic with a radius or square window (standard) that allows access to either side. The mount is attached to the lip of a counter using bolts for stability and maximized space. p. 31
Section 2: SG-PM (Projection Mount)	
	Designed to be fixed to a vertical surface with fasteners (not included). This allows installer to select custom height without compromising any counter space. p. 32
Section 3: SG-CM (Ceiling Mount)	
	Suspended from the ceiling with durable cables and hardware (included), allowing select height and possible access underneath. This can also support a larger SGuard style. p. 33
Section 4: All Acrylic	
	This SGuard is only the acrylic that is fastened to a preexisting surface. A simple method to installing that only requires screws (not included). p. 35
Section 5: SG-Cubicle	
	Attaches to the tops of cubicles in office spaces with a mounting bracket. p. 37

Table Top Models

Section 1: SG-TBLD (4 Sections)	
	Requires no tools to assemble. 2 interlocking pieces create 4 separate sections on a table top. Radius or square corners with optional windows p. 38

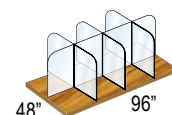

Section 2: SG-TBLD (6 Sections)

Requires no tools to assemble. 3 interlocking pieces create 6 separate sections on a table top. Radius or square corners with optional windows

p. 40

Section 3: SG-TBLD (8 Sections)

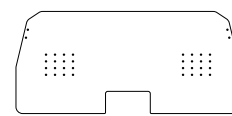

Requires no tools to assemble. 4 interlocking pieces create 8 separate sections on a table top. Radius or square corners with optional windows

p. 41

Vehicle Models

Section 1: SUV

Designed to fit most models of Sports Utility Vehicles to allow driver and passenger protection. Pre-drilled installation grid allows for easy installation. Made from 1/8" polycarbonate.

p. 42

Section 2: Car

Designed to fit most models of Sedan styled cars. Pre-drilled installation grid allows for easy installation. Made from 1/8" polycarbonate.

p. 44

Section 3: Truck

Designed to fit most models of Trucks to allow driver and passenger protection. Pre-drilled installation grid allows for easy installation. Made from 1/8" polycarbonate.

p. 46

Section 4: Mini Van

Designed to fit most models of Mini Vans. Pre-drilled installation grid allows for easy installation. Made from 1/8" polycarbonate.

p. 47

SGUARD FEATURES AND OPTIONS

MATERIALS:

The SGuard features 1/4" thick heavy duty, crystal clear cast acrylic. This material provides chemical resistance to allow for cleaning and disinfecting without the concern of cracking, hazing, or clouding of the viewing surface.

OPTIONAL:

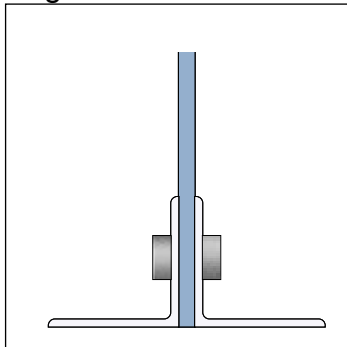

CORNERS: Radius or square corners can be created on any SGuard with no added charge.

WINDOWS: Access windows to your customized sizes with no additional cost.

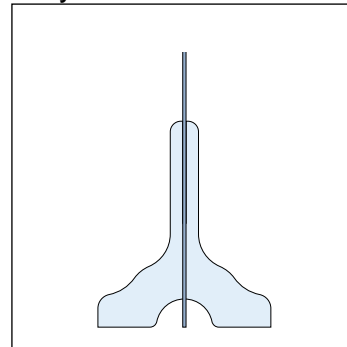

GRAPHICS: Logos, designs, and colored borders can be printed on all SGuard acrylic surfaces. Fee depends on area of applicable graphics
