A message from the Board of Directors

Aloha!

We have received several questions regarding the role of the LCA Board of Directors in the buy-out program that the County explained in the [Kilauea Recover Action Plan](#).

The LCA Board of Director plays no role in terms of deciding who receives a buy-out and the amount.

However, the LCA BOD will facilitate a conversation focused on the impact of the buy-out program on the LCA at the August 13th meeting. August 18th is the deadline for the County receiving feedback about the Action Plan.

Please see these FAQs that the County created:
