Having a celebrity voice read the text you've written is no longer impossible. You can have them sing you a birthday song, narrate a news article, or voice your study material. All this is possible with the use of celebrity voice generator apps.These are real-time text-to-speech tools that transcribe text into audio. They use artificial intelligence, deep learning, and advanced APIs to recognize words and read them aloud in realistic voices fully reminiscent of actual human voices, and in this case, celebrities.Uses of a celebrity voice generatorWhy would anyone want a celebrity voice reading their text? Is it just for voice cloning and pranks, or are there any other reasons? Well, it's both. Having a famous voice-over can be pretty fun if you're creating spoof online content. On the other hand, it's handy for creating deepfake videos and audio clips for sharing on social media.The latter can be a pretty shady thing, to say the least.

Although fun, deepfakes can cause a myriad of problems for the people impersonated in these videos, GIFs, and audio clips. Deepfake and real-time learning technology have advanced beyond our wildest dreams, and it's easy to mistake it for actual footage of someone, leading to fake news and viral fraud.How good is the quality?Some deepfakes are so well-made that they are sometimes even better than the big-budget CGI we see in blockbuster movies. But it's not just about the image quality—it's also how good they sound. Celebrity voice-overs are so good that in a couple of years, it will be impossible to distinguish them from the voices of real people they are impersonating.Of course, not all AI voice generators offer the same quality. Some are simply better than others.

Namely, free versions of voice generators often offer less quality than premium apps. But that's understandable. And if you want a lifelike new voice, you should be prepared to spend a reasonable amount of money on it.Examples of celebrity voice-oversCelebrity voice-over generators offer countless voices. They range from fictional ones from cartoons and video games to those of pop stars, actors, and other famous people like politicians. As such, you can enjoy listening to Sonic the Hedgehog as well as Kanye West reading a passage from the latest online news article.One of the most popular celebrity voice-overs you'll definitely come across if you decide to use one of these apps is surely Donald Trump. Besides having a pretty unique voice, the former President of the United States isn't a stranger to controversy. Hence, it's no wonder why so many people are using his voice to meme phrases with weird background music.Which celebrity voices are available?Besides Sonic, Kanye, and Donald Trump, you can listen to practically thousands upon thousands of celebrity voice-overs.

But to save you time and patience while scrolling the custom voice drop menus, we'll list some of the most popular voices for you.Morgan Freeman: If there's one voice in Hollywood that's synonymous with narrating movies, it's Morgan Freeman. His beautiful deep voice is available on pretty much all celebrity voice generator apps.James Earl Jones: You might not know what JE Jones looks like, but you sure do know his voice. He was the voice actor for none other than Darth Vader, and it's possible to have him read your lines with a voice generator app.Gwyneth Paltrow: Another popular voice-over for your text is the famous actress Gwyneth Paltrow. Her female voice is beautiful, making her a perfect choice for anyone looking to have a relaxing experience while turning text into speech.Scooby-Doo: On the brighter side of things, there's always the voice of the most famous Great Dane—Scooby-Doo. Quirky enough to make any sentence funny, Scooby's voice is commonly available on celebrity voice-over generators.SpeechifyHaving celebrities voice your text is fun and all, but why not use speech technology for a more serious purpose?
