

NATURE IS A WONDERLAND

You can hear a monkey howling behind you as if you are in the jungles of Madagascar. The roar of a hungry lioness pierces your ears as she stares down her prey with intensity. You are left in awe by the power and beauty of these majestic creatures.

Excited and nervous, goosebumps on every limb. Your primal instincts trigger, screaming at you to run. And you haven't even reached the zoo yet.

You're still in the car with your family.

At the Toronto Zoo we understand better than anyone that we are all animals at heart. But that doesn't mean you should be embarrassed.

We encourage you to put it on display. From ziplining through the trees to enjoying a trip on the zoomobile, you and your family have the freedom to be your true selves.

Because everyone is howling with you.

Swing by our website today at torontozoo.com to check out our latest offers and attractions.

See what fits your nature.
