

Optimum nutrition  
for active pets.

LifeStyle is scientifically formulated by animal nutritionists to meet the nutritional needs of your best friend. It provides your dog with the quality of life it deserves promoting a strong immune system, bone strength and joint support (added glucosamine and chondroitin), muscle tone, skin and coat condition (natural fats with Omega 6 and 3 essential fatty acids) and general good health and vitality.

COLOURANTS

Because life's  
an adventure!

The growth of a dog is extremely rapid in the early phase of life which is why LifeStyle Puppy is scientifically formulated for healthy development and to sustain this rapid growth. LifeStyle Puppy contains prebiotic fibres to promote a healthy digestive system. The carefully selected cooked ingredients (including rice) and real meat inclusion, results in high digestibility and palatability.
